Attention: Barbara A. Hoffmann
Regulatory Manager

Gentlemen:

Subject: Tab-A-Day Daily Chlorinating Tablets
EPA Registration No. 9291-6
Your Application Dated May 7, 1990

This is in response to your request to amend this registration to change the primary product name from "Tab-A-Day Fast-Dissolving Chlorinating 1 oz Tablets" to "Tab-A-Day Daily Chlorinating Tablets."

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

- 1. Make the following revision before you release the product for shipment bearing the amended labeling.

- According to our records, this product's registration was transferred from EPA Registration No. 4829-124 to EPA Registration No. 9291-6. The labeling must therefore reflect the new EPA Registration Number.

- 2. Submit the final printed labeling for inclusion in the product file.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Re: EPA Letter Dated:

AUG 01 1990

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
Registered under EPA Reg. No.

9291-6

DAILY
Chlorinating
BACTERICIDE • ALGAEICIDE • DISINFECTANT TABLETS

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for additional precautions and
statement of practical treatment.

ACTIVE INGREDIENT	
* Trichloro-s-triazinetronone	63%
INERT INGREDIENTS	37%
	Total 100%
* Available Chlorine	56%

NET WEIGHT: 4.25 lbs. (1.927 kg)
68 tablets approximately 1 oz. each

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
START-UP: When starting up a reopened or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2 to 7.6. Use Coastal pH plus or pH minus as indicated by a Coastal Test Kit. Then superchlorinate with Coast Pool Shock or Blast One Shot Shock Treatment, or Ice-Clear Super Stabilized Chlorinating Powder to establish a free chlorine residual of 1.0 to 1.5 ppm (parts per million). If your pool has not been stabilized previously, add Coastal Chlorine Stabilizer & Conditioner (cyanuric acid) until 30 ppm is obtained following label directions.

DAILY: Add Tab-A-Day Daily Chlorinating Tablets to the pool skimmer or floating dispenser as necessary to maintain a 1.0 to 1.5 ppm chlorine residual. A suggested dosage is one Tab-A-Day tablet per 5,000 gallons of water daily. This dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rains and high temperatures. Therefore, frequent use of a Coastal Test Kit is recommended as a guide to maintain the pH at 7.2 to 7.6 and the chlorine residual at 1.0 to 1.5 ppm.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling, including to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: If swallowed, promptly drink large quantities of water. DO NOT induce vomiting. Call a physician immediately. If on skin, brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists get medical attention. If in eyes, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention. If inhaled, remove person to fresh air. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry vessels. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. Isolate container (if possible) in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, isolate container (if possible) and flood with large volumes of water to dissolve all material before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
