Attention: Barbara A. Hoffman
Regulatory Manager

Gentlemen:

Subject: Tab-A-Day Daily Chlorinating Tablets
EPA Registration No. 9291-6
Your Application Dated May 7, 1990

This is in response to your request to amend this registration to change the primary product name from "Tab-A-Day Fast-Dissolving Chlorinating 1 oz Tablets" to "Tab-A-Day Daily Chlorinating Tablets."

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the following revision before you release the product for shipment bearing the amended labeling.

   According to our records, this product's registration was transferred from EPA Registration No. 4829-124 to EPA Registration No. 9291-6. The labeling must therefore reflect the new EPA Registration Number.

2. Submit the final printed labeling for inclusion in the product file.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.
If you have any questions in this regard, please contact Ms. Ruth Douglas at (703) 557-3842.

Sincerely yours,

[Signature]

Walter C. Francis
Acting Product Manager (32)
Antimicrobial Program Branch
Registration Division (H7505C)

KEEP OUT OF REACH OF CHILDREN

DANGER
See back panel for additional precautions and statement of practical treatment.

ACTIVE INGREDIENT
* Trichloro-s-triazinetrione ........................................ 63.0%

INERT INGREDIENTS .................................................. 37.0%
Total ................................................................. 100.0%
* Available Chlorine .................................................. 56.0%

NET WEIGHT: 4.25 lbs. (1.927 kg)
68 tablets approximately 1 oz. each

Chlorinating TABLETS
DAILY
BACTERICIDE • ALGAEocide • DISINFECTANT
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SURFACE: When starting up a new or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2 to 7.8. Use Coastal pH Plus or pH Adjust as indicated by a Coastal Test Kit. Then rework in accordance with Surface Pool Sheets or Titan-One Sheet Treatment, or use Chloro Super and Chloro pH Minus Powder to establish a free chlorine residual of 1.0 to 1.5 ppm per gallon. If pool water has not been stabilized previously, add Coastal Chlorine Stabilizer & Conditioner (yields 30 ppm) until 30 ppm is obtained following label directions.

DAILY: Add Tab-A-Day Daily Chlorinating Tablets to the pool or dispenser at the rate specified as necessary to maintain a 1.0 to 1.5 ppm chlorine residual. A suggested dosage is one Tab-A-Day tablet per 5,000 gallons of water daily. This dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rains and high temperatures. Therefore, frequent use of a Coastal Test Kit is recommended as a guide to maintain the pH at 7.2 to 7.8 and the chlorine residual at 1.0 to 1.5 ppm.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Inhaling to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: If swallowed, promptly drink large quantities of water. DO NOT induce vomiting. Call a physician immediately. If on skin, wash off excess chlorine and flush skin with plenty of water for at least 15 minutes. If irritation persists get medical attention. If in eyes, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention. If inhaled, remove person to fresh air. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS

STORAGE AND DISPOSAL

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your local office of the Environmental Protection Agency.

KEEP THIS PRODUCT IN A SECURE, LOCKED AREA.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, isolate container (if possible) and flush with large volumes of water to dissolve all material before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storing, disposing or cleaning of equipment.
