

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink in a egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or Poison Control Center immediately.

IF IN EYES: Flush with plenty of water for at least 15 minutes. Call a physician.

IF ON SKIN: Flush with plenty of water for at least 15 minutes. Get medical attention. Remove and wash contaminated clothing before reuse.

NOTE TO PHYSICIAN: Probable mucosal damage may result from the use of gas trichloroethylene. Measures against respiratory distress and other respiratory and cardiovascular effects may be required.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
DANGER**

Corrosive, causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public water supply in a container with an NPDES Permit. Do not contaminate water by cleaning, maintenance or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. OPEN DUMPING IS PROHIBITED. DO NOT REUSE EMPTY CONTAINER.

STORAGE: Store only in original container. Keep container closed when not in use. Store in a secure place. Isolate leaking containers. Recover spilled product with a mop or wet pickup vacuum. Flush area with plenty of water and recover solution.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. In proper disposal of excess pesticide, spray material or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: *Metal containers:* Triple rinse for equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. *Plastic containers:* Triple rinse for equivalent. Then offer for recycling, or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. If burned, stay at least 200 feet away.

ALGEX 10

CONCENTRATED SWIMMING POOL ALGAEICIDE

ACCEPTED

OCT 25 1984

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 333-10

INSTRUCTIONS FOR USE, continued

Initial Dose: 1 gallon to 50,000 gallons of water. (provides 2 ppm active quaternary).

Maintenance Dose: 1 quart to 50,000 gallons of water (provides 1/2 ppm active quaternary).

A CONCENTRATED SWIMMING POOL ALGAEICIDE. WHEN USED AS DIRECTED IT WILL KILL AND PREVENT DEVELOPMENT OF CHLORELLA PYRENOIDOSA (GREEN ALGAE), PHORMIDIUM INUNDATUM (BLACK ALGAE), PHORMIDIUM RETZII (SQUARE G ALGAE), LYNGBYA VERSICOLOR (BLUE-GREEN ALGAE) AND OTHER SWIMMING-POOL ALGAE. WILL NOT HARM POOL EQUIPMENT AT USE DILUTION. COMPATIBLE WITH MOST COMMONLY USED SWIMMING POOL CHEMICALS, BUT SHOULD NOT BE MIXED WITH SOAPS OR CLEANERS OR PREMIXED WITH OTHER WATER-TREATING CHEMICALS. FOR BEST RESULTS, ADD DIRECTLY TO POOL WATER.

ACTIVE INGREDIENTS	
ACTIVE INGREDIENT 14, 30% 16, 5% 17, 5% 18	50%
ACTIVE INGREDIENT 12, 32% 14, dimethyl	50%
INERT INGREDIENTS	90.0%
TOTAL	100.0%

Initial dose is used when filling pool at beginning of swimming pool season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment as necessary. When pool is free of visible algae, use recommended maintenance dose.

Maintenance dose should be added at least once every 3-5 days. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If makeup water is added at the rate of more than 10% of pool capacity per week, add 1 quart for each 10,000 gallons of fresh makeup water added per week.

When the swimming season is over, add 1 gallon to 50,000 gallons of water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to usage the following season.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink milk or egg whites (if available) or 1 quart of water. If these are not available, drink large quantities of water. Avoid alcohol. Call a physician or Poison Control Center immediately.

IF IN EYES: Flush eyes with water for at least 15 minutes. Call a physician.

IF ON SKIN: Flush with plenty of water for at least 15 minutes. Get medical attention. Remove and wash all contaminated clothing before reuse.

NOTE TO PHYSICIAN: Proliferation of algae damage may necessitate the use of gas tric lavage. Measures against respiratory shock, respiratory depression, and convulsions may be needed.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Corrosive; causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public water, unless in accordance with an NPDES Permit. Do not contaminate water by cleaning of equipment or by disposing of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. OPEN DUMPING IS PROHIBITED. DO NOT REUSE EMPTY CONTAINER.

STORAGE: Store only in original container. Keep container closed when not in use. Store in a secure place. Isolate leaking containers. Recover spilled product with a mop or wet pick-up vacuum. Flush area with plenty of water and recover solution.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: *Metal containers:* Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. *Plastic containers:* Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, if allowed by state and local authorities. If burned, stay out of smoke.

ACCEPTED

OCT 25 1984

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1221-1

DIRECTIONS FOR USE, continued

Initial Dose: 1 gallon to 50,000 gallons of water (provides 2 ppm active quaternary).

Maintenance Dose: 1 quart to 50,000 gallons of water (provides 1/2 ppm active quaternary).

Initial dose is used when filling pool at beginning of swimming pool season. If pool has visible algae growth, treat with initial dose. Wait 24 hours after 24 hours to remove algae debris. If visible algae are still present or reappearance, repeat the treatment as necessary. When pool is free of visible algae, use recommended maintenance dose.

Maintenance dose should be added at least once every 7 days. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If major water changes added at the rate of more than 25% of pool capacity per week, add 1 quart to each 10,000 gallons of fresh makeup water added per week.

When the swimming season is over, add 1 gallon to 50,000 gallons of water left in pool. This does not provide a measure of control of algae growth during the winter months. This treatment will help the servicing of the pool before the start of the following season.

A CONCENTRATED SWIMMING POOL ALGAEICIDE WHEN USED AS DIRECTED, IT WILL KILL AND PREVENT DEVELOPMENT OF CHLORELLA PYRENOIDOSA (GREEN ALGAE), PHORMIDIUM INUNDATUM (BLACK ALGAE), PHORMIDIUM RETZII (SQUARE D ALGAE), LYNGBA VERSICOLOR (BLUE GREEN ALGAE) AND OTHER SWIMMING POOL ALGAE WILL NOT HARM POOL EQUIPMENT AT USE DILUTION.
