FOR PROFESSIONAL USE ONLY

DIRECTIONS

1. Remove gross filth and heavy soil deposits from surfaces prior to application of the recommended solution.
2. For light duty cleaning, sanitizing and deodorizing, use 2 oz. per gal. of water.
3. For heavy duty cleaning, disinfecting and fungicidal activity against pathogenic fungi, use 4½ oz. per gal. of water. If control of Pseudomonas is desired, use 5.6 oz. per gal. of water (28 oz. per 5 gals. of water).
4. Apply with a mop, cloth or sponge to floors, walls, tables, drinking fountains, sinks, refrigerators, stoves, restroom fixtures, shower stalls, animal cages and other similar contaminated hard surfaces. For extra heavy duty industrial cleaning and sanitizing, use a second application.
5. If used for sanitization of food contact surfaces, limit the level to 200 p.p.m. of active quaternary (8 oz. per 5 gals. of water).
