# Diazinon 4S

For Use by Pest Control Operators Only.

Diazinon 4S is a highly effective insecticide for the control of a wide variety of household and commercial pests. It is a contact insecticide which kills pests on contact. It is also a stomach poison which kills pests when they ingest it. Diazinon 4S is effective against cockroaches, ants, spiders, scorpions, and many other household and commercial pests. It is also effective against many types of agricultural pests, including beet beetles, weevils, and moths. Diazinon 4S is available in a ready-to-use spray form, making it easy to apply in a wide variety of situations.

**Directions for Use**

**Non Food Areas:**

To Control Household Pests: Dilute Diazinon 4S with water in a ratio of 1 part Diazinon 4S to 10 parts water. Spray thoroughly in areas where pests are likely to be present. Repeat applications as necessary. Spot application may be used for localized infestations.

To Control Commercial Pests: Dilute Diazinon 4S with water in a ratio of 1 part Diazinon 4S to 10 parts water. Spray thoroughly in areas where pests are likely to be present. Repeat applications as necessary. Spot application may be used for localized infestations.
