(formal:)

CAUTION: KEEP OUT OF REACH OF CHILDREN

See Side panel for additional precautions

J. F. KERNS INDUSTRIES, South El Monte, California

Side Panel:

Uses: SECTROL 1011 kills on contact the exposed stages of flies, mosquitoes, gnats, silverfish, crickets, spiders, clover mites and ants. For best results use a machine adjusted to deliver a fine spray. Treat infested areas thoroughly. Whenever possible keep doors and windows closed during spraying and for at least 10 minutes thereafter. SECTROL 1011 can be used around food, food products, utensils and equipment without danger of contamination or poisonous residues but should not be applied directly onto uncovered food or food stuffs. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Use SECTROL 1011 as a space spray in food processing areas only when plant is not in operation.
