USE DIRECTIONS

FOR CLEANING

Lightly soiled areas - Surfaces may be cleaned with the product by spraying with a solution of 1 part product to 100 parts water. Rinse with clean water.

heavily soiled areas - Surfaces may be cleaned with the product by spraying with a solution of 1 part product to 10 parts water. Rinse with clean water.

GENERAL PURPOSE DISINFECTION

For general purpose disinfection, use the product as a spray on surfaces. For surfaces that are heavily soiled, use a solution of 1 part product to 10 parts water. For surfaces that are lightly soiled, use a solution of 1 part product to 100 parts water. Allow the solution to remain on the surface for 10 minutes before rinsing with clean water.

For disinfection of surfaces that are heavily soiled, use a solution of 1 part product to 10 parts water. For surfaces that are lightly soiled, use a solution of 1 part product to 100 parts water. Allow the solution to remain on the surface for 10 minutes before rinsing with clean water.

HOSPITAL DISINFECTION

For hospital disinfection, use the product as a spray on surfaces. For surfaces that are heavily soiled, use a solution of 1 part product to 10 parts water. For surfaces that are lightly soiled, use a solution of 1 part product to 100 parts water. Allow the solution to remain on the surface for 10 minutes before rinsing with clean water.

SANITIZATION

For sanitization of surfaces, use the product as a spray on surfaces. For surfaces that are heavily soiled, use a solution of 1 part product to 10 parts water. For surfaces that are lightly soiled, use a solution of 1 part product to 100 parts water. Allow the solution to remain on the surface for 10 minutes before rinsing with clean water.

DECLORINATION

For declorination, use the product as a spray on surfaces. For surfaces that are heavily soiled, use a solution of 1 part product to 10 parts water. For surfaces that are lightly soiled, use a solution of 1 part product to 100 parts water. Allow the solution to remain on the surface for 10 minutes before rinsing with clean water.

DANGER

FIRST AID

In case of eye contact, flush with water for 15 minutes. In case of skin contact, wash with soap and water. In case of inhalation, move to fresh air. In case of ingestion, do not induce vomiting. Seek medical attention.

NOTE

See label for important information and precautions on use. Do not use in confined spaces. When empty, rinse container thoroughly with water and do not reuse for other purposes.
