

[9349-7]

Precision S-T Insecticide is recommended for control of flies, mosquitos, roaches, water bugs, silverfish, spiders, bed-bugs, ants and fleas. It may also be used for control of gnats, clothes moths, grain weevils, grain moths, cadelles and flour beetles.

Care should be taken to use S-T Insecticide so that food and food utensils will not be contaminated. If cooking utensils, silverware or dishes become contaminated, they should be thoroughly cleaned. This product is intended for use in food processing plants, factories, warehouses, schools, hospitals and other areas where food is processed, prepared and stored.

Important: Read Directions Carefully.

NOTE: Do Not Spray Stored Grain with this product.

DIRECTIONS FOR USE:

FLIES, WASPS, MOSQUITOS, HORNETS, GNATS, BED-BUGS AND FLYING MOTHS

Close all doors, windows and transoms. Spray with a fine mist sprayer freely, upwards in all directions so that room is filled with vapor. If insects have not dropped to floor in 3 minutes repeat spraying, as quantity sprayed was insufficient. After 10 min. doors and windows may be opened. Repeat as needed. Do not remain in treated area after spraying.

For control of bed-bugs in households provide for thorough and repeated spraying of bed and mattress. The spray should also be directed into all cracks and hiding places about the bedroom, around baseboards, walls and floors.

FLEAS (Infesting Premises)

Remove and destroy animal's bedding and spray sleeping quarters freely forcing spray into all cracks in the floor and room. Repeat when reinfested. Do not remain in treated area after spraying.

MOTHS AND SILVERFISH

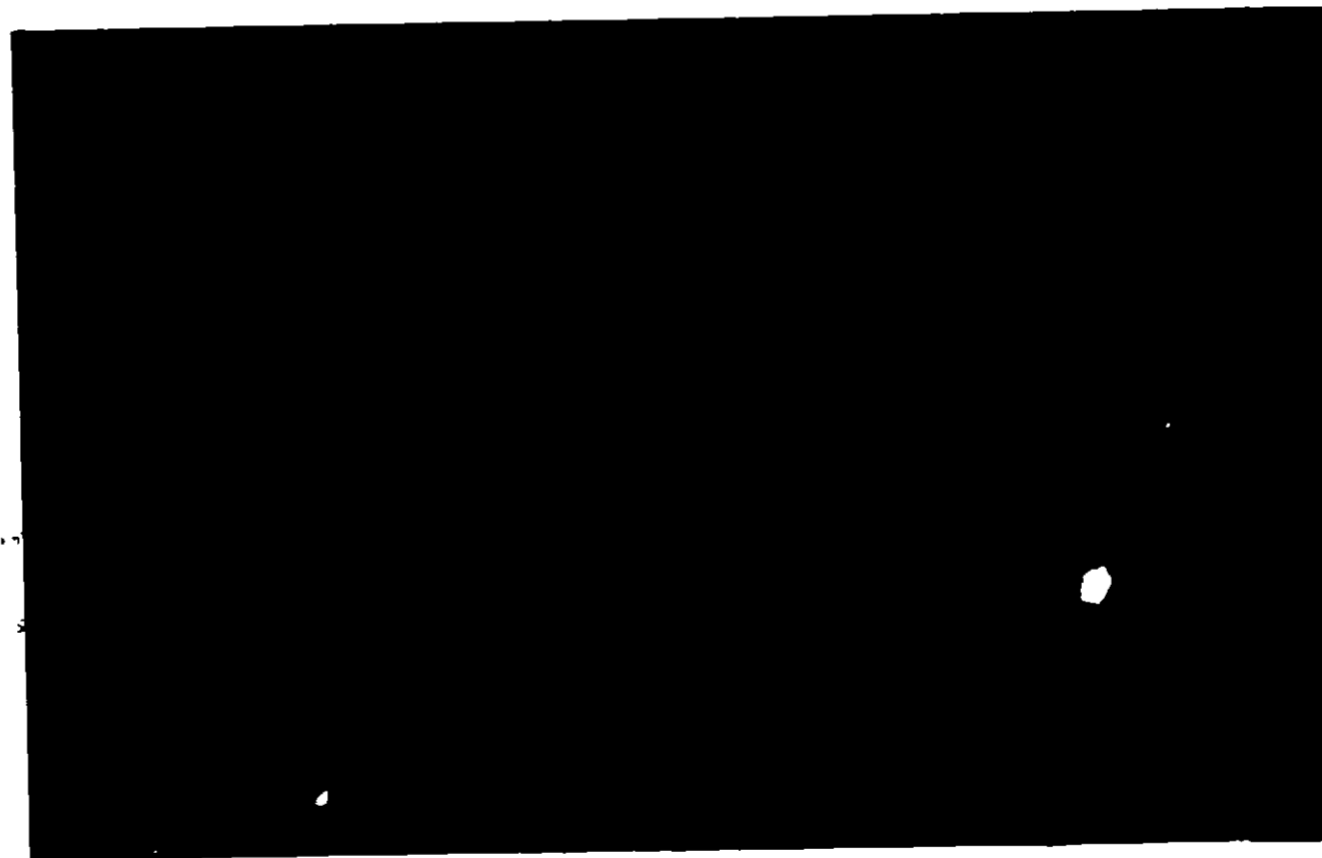

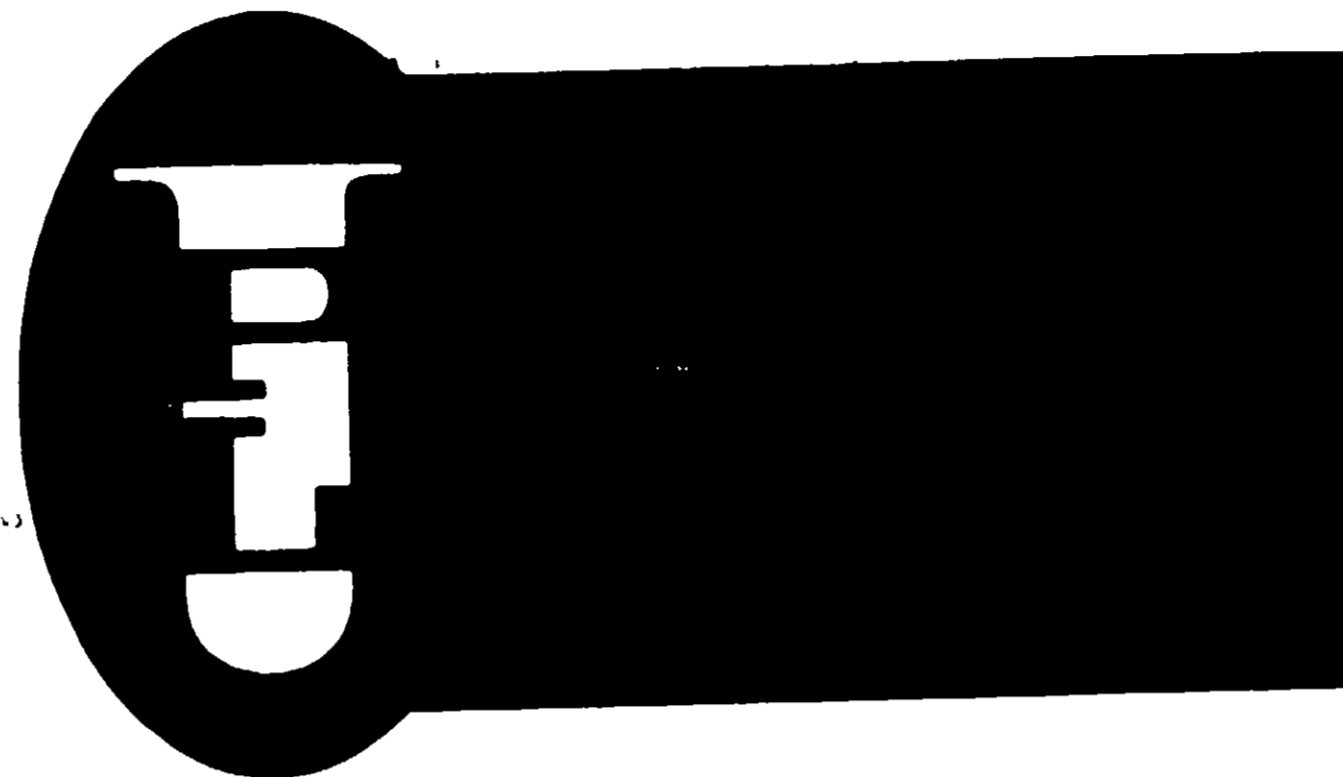

Brush articles thoroughly and remove grease spots. Clean and spray closets including cracks. Spray lightly over entire surface of clothing, blankets, tapestries, etc. Do not remain in treated area after spraying. Repeat applications monthly unless articles are stored in moth-proof containers.

ROACHES, ANTS, WATER BUGS, GRAIN WEEVILS, SPIDERS, FLOUR BEETLES, GRAIN MOTHS, CADELLES AND GRAIN MITES

Spray all cracks and crevices thoroughly. When insects appear, wet them. Repeat for several days, then less frequently to prevent breeding. These insects run away and hide, but die later from the effects. Spray thoroughly all ant trails and areas around door sills and window frames where pests enter. Repeat as necessary.

Grain Weevils, Cadelles, Grain Moths, Flour Beetles and Grain Mites (accessible stages). Wet surfaces thoroughly and treat all infested areas, insect runways and insect hiding places at the rate of one gallon of this material on 750 sq. ft. of area which is point of runoff hitting insects indirectly with this spray. Repeat when necessary. Do not remain in treated area after spraying.

NOTE: TO PROTECT FISH AND WILDLIFE, DO NOT CONTAMINATE STREAMS, LAKES OR PONDS WITH THIS MATERIAL.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN
