

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 9359-4	DATE OF ISSUANCE 06/23/89
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT "SUR-SHOCK"	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Surpass Chemical Company, Inc. 1254 Broadway Albany, NY 12204		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
Based on your response to the Original Registration Standard - "Guidance for the Registration and Reregistration of Pesticide Products Containing Sodium or Calcium Hypochlorite as the Sole Active Ingredient"--issued February 1986 and revised April 1986, EPA has reregistered the product listed above in accordance with FIFRA section 3(g).		
Your amended label has been stamped approved and a copy is enclosed. You must incorporate any comments noted on your label. This label must be on products released for shipment within 1 year or by the next label printing, whichever occurs first. This label must also appear on all supplemental registrations within 1 year of this Notice of Reregistration or at the next label printing, whichever occurs first.		
Your product meets the criteria for reregistration under this Standard. Failure to comply with this Standard may result in the Agency's issuance of a Notice of Intent to Cancel the registration under FIFRA section 6(b)(1).

POOL AND SPA

SUR-SHOCK

FOR CHLORINATION, SHOCK
TREATMENT AND
SUPERCHLORINATION OF
POOL OR SPA WATER

ACTIVE INGREDIENT:
Sodium Hypochlorite 10.5%
INERT INGREDIENTS 89.5%
TOTAL 100%

CAREFULLY READ DIRECTIONS AND
OTHER INFORMATION ON SIDE PANELS

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention if swallowed, drink large quantities of milk or gelatin solution or, if these are not available, drink large quantities of water. Do NOT give vinegar or other acids. Do NOT induce vomiting. Get prompt medical attention.

KEEP OUT OF REACH OF CHILDREN

CAUTION: This product is a strong bleaching agent. Store container upright. Do not place container on surfaces that could be damaged by spill or leak. Do not get on clothing, carpet or other fabric.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Treated effluent may not be discharged into lakes, streams, ponds or public waters without a valid discharge permit. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with grease, oil, such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or rinsate that cannot be used should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

DIRECTIONS

GENERAL CLAUSE
It is a violation of Federal law to use this product in a manner inconsistent with these directions.

FOR DAILY CHLORINATION:
Add 1 or more quarts SUR-SHOCK to 10,000 gallons of pool water to obtain 1.0 ppm (1.5 to 2.0 ppm).

FOR SUPERCHLORINATION/TREATMENT OF POOLS:
Add 3 to 6 quarts SUR-SHOCK to 10,000 gallons of pool water to obtain 3.0 to 6.0 ppm.

FOR SPAS AND HOT TUBS:
Maintain a daily dosage of 1 quart SUR-SHOCK per 1,000 gallons of water to provide chlorine. Shock treat with water as necessary. Allow chlorine level to fall below 3.0 ppm before use.

When you superchlorinate, SHOCK in the evening to overnight and check chlorine level next day. If chlorine level is low, let pool stand unused until safe level.
Shock treatment and superchlorination rapidly increase the level of chlorine. They are two of the most powerful sanitizers. They kill bacteria, algae, odors, and remove chloramines (nitrogen compounds which combine with chlorine). Superchlorination restores chlorine treatment to help shock treatment, which is chlorine treatment, restores it.

RULE OF THUMB:
A. Chlorinate daily, maintain 1.0 to 1.5 ppm (1.5 to 2.0 ppm).
B. Superchlorinate once a week.
C. Shock treat when you have a chlorine reading is difficult.
D. Maintain pH between 7.2 and 7.6.
