	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Peliordine 175	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Industrial Chemical & Supply Company
 1301 North Rome Avenue
 Tampa, FL 33607

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

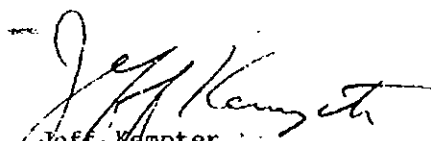

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 9365-2" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION INFORMATION

For use on hard, non-porous, inanimate surfaces (glass, stainless steel, galvanized metal, porcelain, linoleum, tile, enameled and finished wood surfaces). Use on walls, floors, appliances, furnishings, and utensils.

Prepare fresh solutions daily. Do not reuse solutions. Discard solutions that are visibly soiled. Apply use solutions by flooding, immersion, swabbing, mopping or brushing to thoroughly wet all surfaces.

FOR DISINFECTION: In Hospitals, Nursing Homes, Food Plants, Commercial Freezers, Restrooms, Restaurants, and Veterinary Clinics, Farm Premises and Poultry Houses. Use 1 oz. of this Disinfectant in 2 gallons of water for one-step cleaning and disinfecting light and moderately soiled surfaces. Heavily soiled surfaces should be cleaned and rinsed before disinfecting. For effective action, surfaces must remain wet for at least 10 minutes.

Food contact surfaces and all surfaces in edible food processing areas of Federally inspected meat and poultry plants must be rinsed with potable water before reuse when using the product at this concentration. Always carefully protect or remove food and packaging materials from the area before disinfecting.

For Farms and Poultry use, remove all animals, poultry and feed from premises. Remove litter and manure from surfaces occupied or traveled by livestock. Empty all troughs, racks, and other feeding and watering equipment. Then, clean and disinfect as above. Ventilate buildings, coops, and other closed spaces. Do not house animals or poultry until treatment has been absorbed, set or dried.

DISINFECTING TOILET BOWLS AND URINALS: Remove gross soils from surfaces with bowl brush. Add 1 oz. of this Disinfectant to the bowl water. Use brush or swab to thoroughly clean bowl surfaces, especially under the rim. Flush commode or urinal several times and rinse bowl brush well.

SANITIZING OF NON-FOOD CONTACT SURFACES such as walls, floors, desk and counter tops, telephone receivers, door knobs, chairs, toilet seats, bathroom sinks, tubs, and shower stalls, in offices, hotels, industrial and commercial buildings, and non-critical areas of hospitals and nursing homes: clean and sanitize in one operation by spraying or wiping a solution of 1 oz. of this Disinfectant in 5 gallons of water onto the surfaces to be sanitized. Allow solution contact for 5 minutes before wiping clean or rinsing. If surfaces are heavily soiled, pre-clean before sanitizing.

PELIODINE 175

Bactericide - *Virucide

Food Plants-Livestock Buildings-Hospitals-Veterinary Clinics
NO RINSE FOOD PLANT SANITIZER
POULTRY DRINKING WATER SANITIZER

*Kills Herpes Simplex Type 2 on hard, inanimate surfaces when used as directed for disinfection.
