DIRECTIONS

To kill ROACHES, WATER BUGS, SILVERFISH—thoroughly spray infested areas working spray into cracks and other hiding places. When possible spray the insects directly. Repeat when necessary. To kill ANTS in buildings, follow directions for killing roaches, etc. Spray ant trails and areas around door sills and window frames where the pests enter premises. Repeat when necessary.

To kill FLIES, MOSQUITOES and GNATS—Close doors and windows of infested area. Fit infested area with mist using hand or electric atomizer. Allow sprayed area to remain closed for 10 minutes, then sweep up and destroy fallen insects. Repeat when necessary.

To kill MOTHS and CARPET BEETLES—Thoroughly spray clothing, carpets, particularly the seams, or folds. Closets and storage containers should be filled with fumigant and remain closed for 30 minutes after spraying. Spray into any cracks in the building. Repeat every 10-15 days as prevention until no more insects are found.

CAUTION: INFLAMMABLE Do not spray near or toward open flame. Do not smoke while spraying. Remove or cover exposed foods before spraying.
HARMFUL IF SWALLOWED — KEEP OUT OF REACH OF CHILDREN.
