

DIRECTIONS FOR DESTROYING GRASS & WEEDS

SUNNILAND VEGEHOE VEGETATION KILLER is a remarkable new product for destroying undesirable grass and weeds in driveways, walks and play grounds.

TO CONTROL	USE	AREA
GRASS WEEDS and VEGETATION	1 quart in 1 gallon water 1 gallon in 5 gallons water	250 sq. ft. 1,000 sq. ft.

Apply VegeHoe Vegetation Killer at any time during the growing season, preferably on a bright, sunny day. Cover foliage thoroughly. Residue on soil is not absorbed by roots of surrounding plants, therefore complete killing of weeds and grasses around plants, shrubs, trees and bushes is quickly accomplished by carefully directing spray to the undesirable vegetation. For best results apply in combination with SUNNILAND SPREADER STICKER. Clean sprayer thoroughly before using for other purposes.

WARRANTY:

Conditions of use are beyond Seller's control. Seller's liability is limited to products replacement or purchase price refund. Seller makes no warranty, express or implied, concerning products use beyond claims on label.

(Total Arsenic content, as elemental, all in water soluble form 3.78%) Product contains the equivalent of 0.62 lbs. dimethylarsinic acid per gallon.

Caution: Keep Out of Reach of Children
RIGHT PANEL FOR ADDITIONAL CAUTIONS.

DIRECTIONS FOR RENOVATING LAWNS:

TO CONTROL	USE	AREA
GRASS WEEDS and VEGETATION	1 quart in 1 gallon water 1 gallon in 5 gallons water	400 sq. ft. 1600 sq. ft.

Average turf should be dead within 5 days. Tufted grasses, certain weeds and matted turf may require a second treatment (Reapply 5 days later if necessary). When all vegetation is dead, usually 3 to 5 days after required applications of VEGEHOE VEGETATION KILLER, it is safe to sow seed. It is not necessary to remove dead stubble unless turf is matted, in which case rake out or slice through with vertical cutting equipment. **WATER HEAVILY BEFORE SEEDING.**

Consult experiment station or extension service weed specialist for best variety and proper method of seeding lawns.

CAUTION

Harmful if swallowed. Wash thoroughly with soap and water after handling. Avoid contact with skin and eyes. Keep children and domestic animals off treated areas until this material has been washed into the soil. Do not contaminate feed, foodstuffs and any body of water.

Not for use on vegetable gardens. Do not track through treated spots onto untreated lawn areas. Do not re-use container, destroy it when empty.
