To control annual weeds and grasses such as foxtail, ryegrass, broomsedge, lambsquarter, and turkey mullein; apply 1 to 2 gallons in 25 gallons of fuel oil or kerosene per 1000 square feet.

To control perennial weeds and grasses such as smooth brome, Canada bluegrass, purple top, quack-grass, broomsedge, aster, dandelion, dog fennel, goldenrod, plantain, and wild carrot; apply 2 to 4 gallons in 25 gallons fuel oil or kerosene per 1000 square feet.
