

A distinctive disinfectant and deodorant for industrial firms, hotels, motels, schools and other public buildings.

**DIRECTIONS**

**General Premises Disinfection and Deodorization**

Thoroughly clean surface to be disinfected to remove all filth and dirt, then mop or spray with the recommended dilution of pine oil disinfectant-deodorant.

**Floors, Walls, Utensils, Equipment**

Add 2 ounces of disinfectant-deodorant to each gallon of mopping or spraying solution and wet thoroughly the surface to be disinfected or deodorized.

**Toilet Bowls, Urinals**

Clean thoroughly, then disinfect and deodorize by adding 3 ounces of disinfectant-deodorant to the residual bowl water. Use a bowl mop to completely wet all surfaces with this solution.

# PEFKO

## GENUINE PINE OIL DISINFECTANT AND DEODORANT

Phenol Coefficient 5 against Salmonella Typhosa

**ACTIVE INGREDIENTS:**

Steam Distilled Pine Oil .....80%  
Soap ..... 10%
