DISINFECTANT GERMICIDE

Chemical Disinfectant For
Clippers, Razors, Scissors, Combs, Brushes,
Bobby Pins

Neither corrosive nor injurious to sharp edged instruments.

Contents 8 oz. Makes One Gallon

Active ingredients: n-alkyl (C12 50%, C14 30%, C16 17%, C18 3%) dimethyl benzyl ammonium chloride 2.5%.

Inert ingredients: 97.5%

NOT FOR INTERNAL CONSUMPTION

CAUTION: Keep out of reach of

children. Avoid getting in eyes and on skin.

In case of contact, flush with water. If irritation persists, get medical attention. Avoid contamination of foods.

DIRECTIONS: Mix contents of bottle with water to make 1 gallon of DUKE'S DISINFECTANT SOLUTION. Clean instruments after every use and immerse in DUKE'S DISINFECTANT SOLUTION for at least 5 minutes for best results.

DUKE LABORATORIES

301 Elks Club Road Richmond, Indiana
USDA Registration No. 9294-1

This germicidal cleaner performs dual functions; as a powerful germicide and a heavy duty cleaner. It may be used in hospitals, institutions, food processing plants, schools and industrial buildings to clean, sanitize, disinfect or deodorize.

Effective at 2 oz. per gallon against Staphylococcus Aureus, Salmonella Typhosa, Salmonella Choleraesuis, Pseudomonas Aeruginosa and Trichophyton Interdigitale as determined by A. O. A. C. Procedures, 11th Edition.

DIRECTIONS

General Information – Lightly soiled hard surfaces can often be cleaned, disinfected and deodorized by a one-step treatment. Heavily soiled surfaces, fabrics and other porous surfaces must be pre-cleaned before disinfection. Food processing equipment and utensils must be rinsed with potable water after sanitization and before they are used.

Do not mix with soap or anionic detergents.

Floors – For regular mopping of all types of floorings, except natural finished wood, use 2 oz. per gallon of germicidal cleaner. Rinsing is not required. Scrub heavily soiled floors with a stronger solution and then rinse them.

Walls, Woodwork, Venetian Blinds, Leather, Plastic – To clean and disinfect, wash with 2 oz. per gallon of germicidal cleaner and wipe off the excess solution with a cloth or sponge. Rinsing is unnecessary.

Aluminum, Stainless Steel, Filing Cabinets, Lockers – Scrub lightly with a solution of 2 oz. per gallon of germicidal cleaner. Wipe dry with a clean cloth or sponge.

T-C 505 Q

Hospital Type GERMICIDAL CLEANER

ACTIVE INGREDIENTS:

Alkyl (C ₁₄ -58%; C ₁₆ -28%; C ₁₂ -14%) dimethyl benzyl ammonium chlorides	6.0%
Isopropanol	4.0%
Tetrasodium ethylenediaminetetraacetate	0.4%
Essential Oils	1.4%
INERT INGREDIENTS:	88.2%

WARNING

KEEP OUT OF REACH OF CHILDREN

Undiluted germicidal cleaner causes irritation of eyes or skin and is harmful if swallowed. See right panel for first aid, antidote and additional warnings.

Sanitization of Food Processing Equipment – Preclean equipment thoroughly and then apply a solution containing 2 oz. per gallon of germicidal cleaner to all surfaces. Rinse with potable water.

Surgical Instruments – Preclean to remove all blood and serous exudates. For cold disinfection, immerse precleaned instruments in a fresh solution containing 3 oz. per gallon of germicidal cleaner for 10 minutes.

WARNING

Do not get in eyes, on skin, or on clothing.

Harmful if swallowed. Avoid contamination of food.

Rinse empty container with water and discard it.

First Aid – In case of contact with eyes, quickly flush with plenty of water and seek medical attention. In case of contact with skin, immediately flush with plenty of water. See a physician if skin irritation develops.

Antidote – If swallowed, promptly drink a large quantity of water followed by egg white or gelatin. See a physician.
