Atlanta, GA 30339

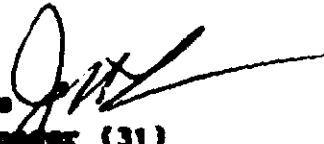

Attention: Mr. R.V. Winton

Gentlemen:

Subject: AHA-10N
EPA Reg. Citation No. 9300-31
Your Submission Dated June 25, 1987
EPA Received Date July 1, 1987

The final labels submitted for the above product have been placed in your file. They will not be reviewed in accordance with FR Notice 82-2. Your product was registered on June 17, 1987 with certain provisions. It is the responsibility of the registrant to comply with these provisions before the product is released for shipment.

Sincerely yours,

John H. Lee
Product Manager (31)
Disinfectants Branch
Registration Division (TS-767C)

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

METAL WORKING FLUIDS: For the control of fungus and bacteria in metal working fluids that contain water, add 100 to 400 ppm of AMA-100 (0.10 to 0.40 gallons per 1,000 gallons of fluid) per week, or as needed to maintain control. Slag feeding to the fluid in the collection tank is recommended. Thoroughly mix the fluid after adding AMA-100 to insure complete dispersion.

AIR WASHER SYSTEMS: For Control of Bacteria and Fungi. Pre-clean the system with detergent and allow air washer to run with fan on for two hours. Flush and check nozzles, usually cleaning as necessary. Add 10 - 40 ppm of AMA-100 (0.01 to 0.04 gallons per 1,000 gallons of water) one to three times per week or as needed to maintain control. Add AMA-100 to a point in the system where uniform mixing and even distribution will occur.

DAIRY PASTEURIZER WATER: For Control of Bacteria, Yeasts and Fungi: Dosages of AMA-100 will depend upon the condition of the system. Systems which are heavily contaminated should be cleaned first. AMA-100 should be added to the first section of the pasteurizer.

The initial dose should be 20 to 40 ppm of AMA-100 (0.02 to 0.04 gallons per 1,000 gallons of water) once or twice weekly, or as needed to obtain control of slim forming organisms. To maintain control, add 10 to 30 ppm of AMA-100 (0.10 to 0.30 gallons per 1,000 gallons of water) once, twice or three times weekly, or as needed. AMA-100 may be added continuously or intermittently, as required to control growth.

SOLUTIONS AND EMULSIONS: For the preservation of solutions, emulsions, adhesives and other aqueous liquid products, the addition of 75 to 200 ppm of AMA-100 is effective. Add AMA-100 at a point in the processing system where there will be sufficient time and agitation for good mixing and dispersion. The exact amount of AMA-100 to be added for the preservation of given formulations will depend on the components as well as local storage time and condition. Dosage rates should be determined by actual test. This product is not cleared for use in the manufacture of adhesives that may come in contact with food.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush immediately with water and get medical attention.

IF INGESTED: Do not induce vomiting. Get medical attention.

IF ON SKIN: Remove contaminated clothing and immediately wash skin with soap and water. If irritation persists, get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS: IRRITANT TO EYES, SKIN, MUCOUS MEMBRANES. DANGEROUS IF SWALLOWED OR ABSORBED THROUGH SKIN. CONTACT WITH EYES, SKIN OR MUCOUS MEMBRANES SHOULD BE IMMEDIATELY WASHED WITH WATER. EYE PROTECTIVE GOGGLES OR FACE SHIELD AND RUBBER GLOVES SHOULD BE WORN WHEN HANDLING. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING.

PHYSICAL AND CHEMICAL HAZARDS: FLAMMABLE LIQUID. DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME.

ENVIRONMENTAL HAZARDS: This pesticide is highly toxic to aquatic life. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, or other bodies of water unless this product is specifically approved for such use and addressed in an NPDES permit. Do not discharge this product into surface waters without previously notifying the appropriate authority. For guidance contact your local, State, or Regional Office of the EPA.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, SOIL, OR FOOD BY STORAGE OR DISPOSAL.

STORAGE: Protect from freezing and from direct sunlight. Do not store in excess of 1 year. Keep container closed. If contents are spilled or leaked during use, collect liquid with absorbent material and dispose of in accordance with local, State, or Federal disposal regulations.

PESTICIDE DISPOSAL: Pesticide wastes are acutely toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by the user, contact your State Environmental Control Agency, or the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal containers must be triple-rinsed (or equivalent) and then offered for recycling or punctured and disposed of in a sanitary landfill, or other procedures approved by state or local authorities. Plastic containers - Triple-rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or other procedures approved by state and local authorities. Do not burn.
