Kennesaw, GA 30144-5515

**Subject: SODAM  
EPA Reg. No. 9386-39  
Your Amendment Dated 1/31/2002**

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, to provide an updated main label dated January 30, 2002, which revises the "First Aid" statements to those required for the product in PR Notice 2001-1, is acceptable with the following minor label requirement.

In addition to the 20 gallon and 55 gallon containers, your application states that the product is shipped in IBC's (Intermediate Bulk Containers) and bulk shipments. The Agency understands IBC's to be commonly called "totes" (often 300 gallon plastic containers with an outer metal cage), and bulk sizes to refer to tank trucks and rail cars. The label must include precise disposal instructions that apply to IBC and bulk containers sizes. For example, IBC's and bulk containers are generally returned to the sender un-rinsed, and the label needs to mention this fact clearly. You must make this change with your next label amendment for this product.

Your amendment mentions that the "Technical Data Sheet" is not included because it does not accompany the shipped product. Please note that the data sheet and any other non-stamped pesticide product information must also be in harmony with the main label and with FIFRA regulations.

A stamped copy of the accepted label is attached for your records.

If you have any questions about the comments in this letter, please feel free to contact Tony Kish at 703-308-9443, or myself at 703-308-6341.

Sincerely,

Marshall Swindell,  
Product Manager Team 33,  
Regulatory Management Branch I  
Antimicrobials Division (7510C)

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**MANUFACTURING USE ONLY:** this product is registered for use only in formulating antimicrobials that may be used in industrial systems such as:

- Cooling towers, air washers & evaporative condensers
- Beet & cane sugar mills
- Paper mills
- Oilfield drilling muds and workover or completion fluids
- Oilfield water treatment and water floods
- Secondary and tertiary oil recovery

This product may not be used to formulate products for use in once-through cooling systems.

Formulators who use this product are responsible for obtaining and maintaining their own EPA pesticide registration.

SEE TECHNICAL BULLETIN FOR MORE DETAILS.

# SODAM™

ANTIMICROBIAL AGENT FOR MANUFACTURING USE ONLY

Active Ingredient:	
Sodium Dimethyldithiocarbamate .....	40%
Inert Ingredients: .....	60%
TOTAL .....	100%

KEEP OUT OF REACH OF CHILDREN

## WARNING

First Aid	
<b>If swallowed:</b>	- Call poison control center or doctor immediately for treatment advice. - Have person sip a glass of water if able to swallow. - Do not induce vomiting unless told to do so by the poison control center or doctor. - Do not give anything by mouth to an unconscious person.
