Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Minor Labeling and Graphics Revisions
Product Name: KLEENEX BRAND ANTI-VIRAL* TISSUE
Admin Number: 9402-10
EPA Receipt Date: 07/27/2023
Action Case Number: 00454346

Dear Jamie Venable:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Terria Northern via email at northern.terria@epa.gov.

Sincerely,

Terria Northern, RM Team Lead

NOTIFICATION

9402-10

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

07/11/2024

Text in [brackets] is optional; text in {braces} is informational to reviewer
[KLEENEX® Anti-Viral* tissue kills 99.9% of cold [and] [&] Flu Viruses*]

[Kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu)]

Because cold and flu viruses are often spread by hand contact, KLEENEX® Brand has developed a tissue for your whole family. KLEENEX® Anti-Viral* tissue has three soft layers, including a moisture-activated middle layer that kills 99.9% of cold and flu viruses* in the tissue within 15 minutes. This product has not been tested against bacteria, fungi or other viruses. See below for anti-viral* details.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use only as a facial tissue.

*Virucidal Against: Rhinoviruses type 1A and 2 (Rhinoviruses are the leading cause of the common cold), Influenza A virus and Influenza B virus (causes the flu); H1N1 (formerly called swine flu); Respiratory Syncytial Virus (RSV – the leading cause of lower respiratory tract infection in children).

STORAGE AND DISPOSAL:

Store in a dry area. Dispose of used tissues promptly. Nonrefillable container. Do not reuse or refill this container. Offer empty container for recycling, if available or discard in trash.

EPA Reg. No. 9402-10
