

STATEMENT OF PRECAUTIONARY TREATMENT

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air. Apply respiratory aid if needed.

IF ON SKIN: Remove contaminated clothing and wash affected area with soap and water.

IF IN EYES: Flush eyes for at least 15 minutes with water. If a physician's aid or irritation persists.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be fatal if swallowed. May be absorbed through the skin. Do not breathe dust. Avoid contact with skin, eyes and clothing. Poisoning may occur as a result of exposure. Wear rubber gloves when handling this product. Wash hands thoroughly after handling and before smoking or eating. Food utensils such as teaspoons or measuring cups should not be used for food purposes after use with insecticide. Keep children and pets off treated areas until the material is washed into the soil and the treated areas have dried completely. Keep away from feed, foodstuffs and domestic water supplies. Keep container closed when not in use.

NOTE TO PHYSICIAN: This product contains an organophosphorus which is a cholinesterase inhibitor. If symptoms of parasympathetic stimulation are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

ENVIRONMENTAL HAZARDS

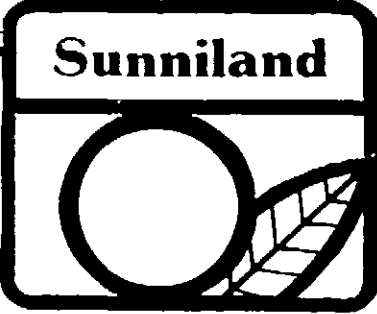

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on the label.

DIRECTIONS FOR USE

Apply this product to plants in a manner consistent with the following instructions:

ROSES: Apply Sunniland Flower Power containing a necessary amount of Di-Syston, a systemic insecticide to control sucking insects. The insecticide is absorbed through the roots of the plants along with the food and protects the plant from within. It cannot be washed off and will protect new shoots as well as undersides of leaves. Do not use the product on fruit trees or vegetable plants. Do not broadcast application of this product.

WHEN TO APPLY

Apply this product at first infestation and continue at six-week intervals. When applied, this material will furnish adequate plant food and protect plants from sucking insects for six weeks or longer.

HOW TO USE

ROSES: Spread 1 cup (2 oz.) evenly around the base of each plant and work into the top 1 to 2 inches of soil. Water thoroughly. Avoid contact with hands. When planting new roses, place 1/2 cup of material in hole and mix with prepared soil. Apply 1/4 cup around established bushes, working into the top 2 inches. Water well. Additional treatment will not be needed for six weeks.

ANNUALS (Petunias, Snapdragons, Calendulas, Marigolds, Zinnias, Etc.)
BULBS, FLOWER BEDS: Apply 2 - 3 pounds per each 100 square feet of bed area. Work into top 1 to 2 inches of soil. Plant seeds or set plants and water thoroughly. For individual plants use 1 teaspoon around each plant and water well.

POTTED PLANTS: Use one level teaspoon per six-inch pot and scratch into the top soil. Water well after application.

ORNAMENTAL SHRUBS: Apply 1/2 cupful (4 oz.) for each foot of shrub height. Distribute the required amount evenly from the base of the plant to the drip line around the plant. Work into the top 1 to 2 inches of soil and water thoroughly.

CONVERSION TABLE: 5 rounded tablespoons equals 1 cup or 2 ounces

DISPOSAL

Do not reuse container. Wrap container and put in trash collection.

WARRANTY: Conditions of use are beyond seller's control. Seller's liability is limited to product replacement or purchase price refund. Seller makes no warranty, expressed or implied, concerning product use beyond claims on label.
