

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

May be fatal if swallowed. May be absorbed through skin. Avoid exposure. Avoid contact with skin, eyes, and clothing. In case of contact, wash with soap and water. If spray gets into eyes, wash with plenty of water. In case of poisoning, call a physician immediately. Have patient lie down and keep quiet. If swallowed, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Wash contaminated clothing with soap and hot water before reuse. Do not breathe spray. Always wash thoroughly with soap and water after handling. Do not handle treated plants until the spray deposit has dried. Do not use on plants used for food or forage. **ANTIDOTE:** Atropine sulfate and/or 2 PAM.

**ENVIRONMENTAL HAZARDS**

This product is toxic to bees and should not be applied when bees are actively visiting area.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **STOP - READ LABEL BEFORE USE**

**STORAGE AND DISPOSAL**

**STORAGE:** Do not use, pour, spill, or store near heat or open flame. Store in a cool place, but not below 25° F. Do not store near food or feedstuff.  
**DISPOSAL:** Do not reuse container for any purpose. Destroy empty container.

**NET CONTENTS - 8 OUNCES or 2366 LITRE**

EPA EST. NO. 3-04 FL 1  
EPA REG. NO. 5104 43

Manufactured by  
**CHASE & COMPANY**  
Sanford, Florida 32771

**Sunniland**

**WITH CONTACT and SYSTEMIC ACTION**

**Multi-Purpose Systemic Insecticide**

ACTIVE INGREDIENTS	
Danethyl (2,2,2-trichloro-1-hydroxyethyl) phosphorothioate	18.0%
S-(2-ethylbutyl) ethyl O, O-Dimethyl phosphorothioate 11	6.0%
Aromatic Petroleum Distillate	36.4%
INERT INGREDIENTS	40.6%
<b>TOTAL</b>	<b>100.0%</b>

Contains 15 lbs. Dylor plus 0.5 lbs. Metasystox per gallon

**KEEP OUT OF REACH OF CHILDREN**

**WARNING**

See Left Panel for Additional Cautions

**DIRECTIONS FOR USE ON ORNAMENTAL FLOWERS, SHRUBS AND TREES**

Sprays made from the concentrate will kill:

Aphids	Digitaria leaf miners	Soft-shell caterpillar
Anthrenus	Holly leaf miners	Soft scales
Arctian Scales	Homocidus	Stink bug
Baccharis	Imported cabbageworm	Tan-shed plant bug
Bark Red miners	Leafhoppers	Thrips
Chickadee caterpillars	Lygus bugs	Tobacco budworm
Darkling ground beetle	Mealy bugs	Webworms
Diamondback moth	Mealy bugs	Whiteflies

Multi-Purpose Systemic Insecticide provides plants with long-way protection from insect attack. The spray kills insects on contact. In addition, the spray is absorbed by the leaves and moves on the sap stream to all parts of the plant (systemic action). Working from inside the plant, the insecticide kills sucking insects that feed on the plant sap.

**MIXED DIRECTIONS**

The concentrate mixes readily with water and may be used in all types of sprayers. Use 2 tablespoons (1 fluid ounce) of the concentrate for each gallon of water. Spray plants until they are thoroughly wet. For control of insects on critical planting media, trench pot with diluted insecticide. Repeat applications as necessary to maintain insect control.

For base-end type sprayer, measure 2 tablespoons into the sprayer jar for each gallon of final spray. Add water to the indicated level in the jar to give the desired number of gallons of final spray. Follow the recommendations of the manufacturer of your particular base end sprayer.

**RESTRICTIONS**

Plant injury from Multi-Purpose Systemic Insecticide application has been observed on Royal Purple Smoke trees and on carnations and roses. For these three kinds of plants, treat only a few plants and observe for 6 to 8 days before spraying the entire planting.
