DISINFECTANT DEODORANT SPRAY

REDUCES AIRBORNE BACTERIA
ELIMINATES ODORS

CHEMTECH DISINFECTANT-DEODORANT SPRAY is designed for use in homes, offices, motels, hospitals and other areas where odor and bacterial control is desired. CHEMTECH DISINFECTANT-DEODORANT SPRAY reduces airborne bacteria, eliminates offensive odors and leaves the air smelling fresh and clean. On surfaces CHEMTECH DISINFECTANT-DEODORANT SPRAY kills Staphylococcus, Streptococcus, Pseudomonas, Mycobacterium tuberculosis, flu viruses and most disease germs. It provides residual bacteriostatic action between uses if not washed or rubbed off. CHEMTECH DISINFECTANT-DEODORANT SPRAY controls mold, mildew, and athlete's foot fungi on environmental surfaces. Use on door handles, clean-up carts, light switches, dressing or linen carts, hampers, diaper pails, bedpans, toilet seats, plastic mattress covers, and lockers. Spray the surface until moist. Repeat application in 8 days to maintain control.

DIRECTIONS: To Disinfect Surfaces: Hold container 6-8 inches from the surface. Spray 2-3 seconds or until surface is wet. Avoid using CHEMTECH DISINFECTANT DEODORANT SPRAY on delicate fabrics, lacquered, shellacked, or other finished wood surfaces. Do not spray the product directly on pets.

To Sanitize the Air: Close the doors and windows and spray 20-30 seconds in most average-size rooms, moving the spray in a circular arc about the room. CHEMTECH DISINFECTANT-DEODORANT SPRAY reduces the number of airborne bacteria such as Staphylococcus aureus. It is also a true odor counteragent that eliminates lingering odors, leaving the air smelling fresh and clean.

WARNING: Keep out of reach of children. Do not spray in face. (See side panel for additional precautions.)

NET WEIGHT 13 AV. OZ.

WARNING: Avoid getting into eyes. In case of contact, flush with water; if irritation persists, get medical attention. Harmful if swallowed.

FLAMMABLE — Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperature above 130° may cause bursting.

ACTIVE INGREDIENTS:

n-alkyl* dimethyl ethylbenzyl ammonium chloride 0.09%, n-alkyl* dimethyl dimethylbenzyl ammonium chloride 0.09%, n-alkyl* dimethyl cumenyl ammonium chloride 0.06%, n-alkyl (60%C14, 30%C16, 5%C12, 5%C18) dimethylbenzyl ammonium chloride 0.06%, Ethanol (15%) Isopropanol 0.43%
*n-alkyl distribution: 50%C12, 30%C14, 17%C16, 3%C18.

INERT INGREDIENTS: 37.75%.
Contains 0.01% Sodium Nitrite
