

[9405-16]

FOR:
Hospitals, Nursing Homes, Schools,
Offices, Hotels, Motels, Restau-
rants, Bakeries, Food Plants, and
adjacent exterior areas.

Active Ingredients:
* (5-Benzyl-3-furyl)methyl 2,
2-dimethyl-3-
(2-methylpropenyl)
cyclopropane-
carboxylate 0.300% w/w
Related
Compounds 0.041
Petroleum
Distillate 19.050

Inert Ingredients: . 80.609
100.000%

*Cis/trans isomers ratio: max.
30% (±) cis and min. 70% (±) trans.

WARNING:

Avoid contamination of
feed and foodstuffs. Re-
move pets, birds and
cover fish aquarium be-
fore spraying. Use in food
processing plants only
when plant is not in oper-
ation. Foods should be
removed or covered dur-
ing treatment. All food
processing surfaces
should be covered or
thoroughly cleaned be-
fore using. In hospitals,
patients should be re-
moved from room prior to
treatment. Room should
be ventilated for 2 hours
after spraying. Do not re-
turn patients to room until
after ventilation. Harmful
if swallowed.

+ PL-131™.

Chemtech Odor Controlled Insecticide B

Kills flying and crawling insects
Houseflies,
Mosquitoes and Roaches.

Chemtech Insecticide is a spec-
ially developed aerosol formu-
lation combining PL-131™, a
broad spectrum insecticide,
and a blend of organoleptic in-
gredients which chemically
neutralize the malodors so com-
monly found in most insectici-
dals. When sprayed indoors, it
also counteracts household odors,
leaving the air clean and fresh
smelling.

WARNING: Keep Out of Reach of Children. Do not
spray in face. (See side panel for additional precautions.)

NET WEIGHT 1 LB.

* U.S. Pat. No. 39465007

WARNING: Flammable! Contents
under pressure. Do not puncture.
Do not use or store near heat or
open flame. Exposure to tempera-
tures above 130 F. may cause
bursting. Never throw container
into fire or incinerator.

DIRECTIONS:
Remove protective cap. Aim spray
opening away from person. Push
button to spray.

**FOR HOUSEFLIES, MOSQUITOES,
AND GNATS:** Close all doors and
windows. Point nozzle upward. Direct
the spray mist to all parts of
the room, especially windows and
other light sources which attract
these insects. Fill the room with
mist then leave the treated area.
Keep the room closed for at least
15 minutes. Ventilate the room
when treatment is completed.

WASPS: Application should be
made in late evening when insects
are at rest. Spray liberally into fly-
ing and breeding places, contact-
ing as many insects as possible.
Repeat as necessary.

FOR CRAWLING INSECTS:
Roaches, waterbugs, earwigs,
grain mites, sowbugs, spiders and
centipedes: Spray thoroughly into
hiding places such as cracks,
crevices, moist areas, openings
around pipes and sinks, under re-
frigerators, baseboards, and stor-
age areas. Spray directly on in-
sects where possible. Repeat as
necessary.

ANTS: Spray trails, nests and
points of entry. Spray on ants
where possible. Repeat as neces-
sary.

FLEAS: Spray animal sleeping
quarters thoroughly.
