

CHEMTECH DISINFECTANT-DEODORANT SPRAY is designed for use in homes, offices, motels, hospitals and other areas where odor and bacterial control is desired. **CHEMTECH DISINFECTANT-DEODORANT SPRAY** reduces airborne bacteria, eliminates offensive odors and leaves the air smelling fresh and clean. On surfaces **CHEMTECH DISINFECTANT-DEODORANT SPRAY** kills Staphylococcus, Streptococcus, Pseudomonas, Mycobacterium tuberculosis, Trichophyton interdigitale (Athletes Foot Fungus), influenza viruses and most disease germs. It provides residual bacteriostatic action between uses if not washed or rubbed off. **CHEMTECH DISINFECTANT-DEODORANT SPRAY** controls mold and mildew on environmental surfaces. Use on door handles, clean-up carts, light switches, dressing or linen carts, hampers, diaper pails, bedpans, toilet seats, plastic mattress covers, and lockers. Spray the surface until moist. Repeat application in 8 days to maintain residual bacteriostatic control.

DIRECTIONS: To Disinfect Surfaces: Hold container 6-8 inches from the surface. Spray 2-3 seconds, or until surface is wet. Avoid using **CHEMTECH DISINFECTANT-DEODORANT SPRAY** on delicate fabrics, lacquered, shellacked, or other finished wood surfaces. Do not spray the product directly on pets.
To Sanitize the Air: Close the doors and windows and spray 20-30 seconds in most average-size rooms, moving the spray in a circular arc about the room. **CHEMTECH DISINFECTANT-DEODORANT SPRAY** reduces the number of airborne bacteria such as Staphylococcus aureus. It is also a true odor counteractant that eliminates lingering odors, leaving the air smelling fresh and clean.
