INSTRUCTION

VAPO-KILL is a powerful insecticide which
 controls mosquitoes, flies, gnats, wasps,
 crickets and spiders. It is a colorless,
 odorless, non-toxic liquid which is easily
 applied to most household and industrial
 areas.

To Operate: Simply insert the control
 approximately 1/2 inch into the illustration.
 Secure container to any available metal
 base, with a nut and bolt. VAPO-KILL will
 operate at any time, however, to obtain
 longer life use it in a room all the time, and
 in an upright position when possible.
 If it is desirable to let water in the container
 during some seasons, the valve may be re-
 turned to its normal position. The water
 released by VAPO-KILL is evaporated by the
 temperature of the air. It is therefore
 therefore, during the months of winter, when
 temperature and insect activity are low,
 VAPO-KILL releases less vapor. This makes
 it economically feasible to use VAPO-KILL
 in outside inclosures such as porch and
 Replaces container when bottom section
 turns white.

CAUTION

Do not use in areas where children, pets, birds
 and eyes. If liquid is spilled on skin, wash with
 soap and water. Keep out of children's hands. Do not
 use in closets containing food or medicines.
