MODO DE USARSE — Para hacer uso de este Atomizador Automático, debe de instalarse en un lugar adecuado, pues cubre 6,000 pies cúbicos.

El Atomizador Automáticamente activa la válvula la cual arroja 100 mg. cada 15 minutos; después de 2 horas de estar trabajando, existe suficiente purge en la atmósfera para eliminar toda clase de insectos, tales como moscas, mosquitos polilla o cualquier clase existente.

Este envase de 12 onzas del New Purge contiene aproximadamente 3,300 descargas, suficientes para trabajar durante 825 horas (34 días siempre y cuando el Atomizador se mantenga trabajando continuamente) o 68 días si trabaja 12 horas. Cuando se use durante 24 horas le sugerimos cambiar el envase regularmente.

CONTENIDO — El New Purge concentrado aerosol matador de insectos, contiene una fórmula altamente eficaz, especialmente diseñada para usarse en aparatos atomizadores automáticos. Se especializa para usos diversos, tales como en restaurantes, tiendas, lecherías, caballerizas, hoteles, hospitales, establecimientos comerciales, y lugares donde existan moscas, mosquitos o polilla o cualquier clase de insectos voladores.

PRECAUCION: No debe usarse en habitaciones de infantes, ni en casas de descanso o en corrientes continuas de aire que puedan reducir la eficacia de este producto. No se use en lugares donde caiga directamente sobre los alimentos.

PRECAUCION: Este producto está bajo presión, no se almacene en lugares que estén sobre (55°C) pues se expone a explotar, no se arroje sobre el fuego o incinerador ni se perforo con algún objeto punzante.

FOR USE IN AUTOMIZER: One Automizer unit should be installed for each 6,000 cubic feet of space to be treated. The Automizer activates NEW PURGE'S 100 mg. valve once every 15 minutes; after two hours of operation, enough NEW PURGE is suspended in the air to kill a substantial proportion of the flies, mosquitos and gnats present.

This 12-oz. can of NEW PURGE contains approximately 3,300 "shots" sufficient to sustain operation for a total of 825 hours (34 days on around the clock basis) or 68 days on a 12-hour basis. When used on a 24-hour basis, it is suggested that the container be changed once a month (once every 2 months on 12-hour basis).

INGREDIENT STATEMENT: New Purge Concentrated Aerosol Insect Killer contains a highly effective insecticide formulation specially designed for use in automatic mist dispensing units around food handling establishments, Restaurants, Stores, Dairies, Barns, Motels, Hotels, Hospitals, Food Processing Establishments and other areas where flies, gnats, flying moths, mosquitos are an annoyance.

ACTIVE INGREDIENTS:

Petroleum Hydrocarbons	13.66%
N-octyl bicycloheptene dicarboximide	3.34%
Piperonyl Butoxide Technical*	2.00%
Pyrethrins	1.00%

.....	20.00%
INERT INGREDIENTS	80.00%
.....	100.00%

*Equivalent to 1.6% (butylcarbityl) (6-propyl-piperonyl) ether and .4% related compounds.

CAUTION: Do not use in nurseries or rooms where infants, ill or aged persons are confined. Large drafts of forced ventilation may reduce or eliminate the insecticidal efficacy of these installations. Do not install directly over any food handling or dispensing area.

CAUTION: Contents under pressure. Do not store above 55°C.; may cause bursting. Never throw container into fire or incinerator. Do not puncture.
