

Reg # 9444-1

PM-10

1991

342002CB-8-8/91 (pnt 6/91)

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans & Domestic Animals**  
**CAUTION**

Do not use in nurseries or rooms where infants, ill or aged persons are confined. Large drafts of forced ventilation may reduce or eliminate the insecticidal efficacy of these installations. Do not install directly over any food handling or dispensing area. Do not allow spray to contact plastic, painted or varnished surfaces.

**Physical or Chemical Hazards**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

**INGREDIENT STATEMENT:** Purge II Concentrated Aerosol Insect Killer contains a highly effective insecticide formulation specially designed for use in automatic mist dispensing units in non-residential food handling establishments, commercial or institutional kitchens, dining areas and pantries of restaurants, supermarkets, food plants, food warehouses, bottling plants, hospitals, hotels, motels, stores, dairies, stables, nursing homes, daycare centers, egg and milk handling areas of dairies and chicken houses, where flies, mosquitoes, small flying moths and gnats are an annoyance.

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store in a cool, dry area away from heat or open flame. **DISPOSAL:** Do not reuse empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate.

Authorized for use under USDA Inspection and Grading Programs.

EPA REG No 9444-1

**purge II**  
**CONCENTRATED AEROSOL**  
**INSECT KILLER**

**ACTIVE INGREDIENTS:**

Pyrethrins .....	1.00%
Piperonyl Butoxide, technical* .....	2.00%
N-octyl bicycloheptene dicarboximide .....	3.34%
<b>INERT INGREDIENTS .....</b>	<b>93.66%</b>
	<b>100.00%</b>

\*Equivalent to 1.6% (butylcarbityl) (6-propylpiperonyl) ether and 0.4% related compounds.

Contains Petroleum Distillates.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See Back Panel for Additional Precautionary Statements

**NET WEIGHT 10 oz / 284 g**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**For Use in Aerosol Dispensers:** One dispenser unit should be installed for each 6,000 cubic feet of space to be treated. The Dispenser activates the metered valve once every 15 minutes. After two hours of operation, enough insect killer is suspended in the air to kill a substantial proportion of the flies, mosquitoes and gnats present.

Usually the effectiveness of Purge II will be noticeable within one hour after the Dispenser is activated. If less than 24 hour control is required, the Dispenser should be set to start one hour before control is desired and run one hour after control is no longer needed. Keep in mind that such factors as air flow rate, size of space treated, humidity and room temperature all affect insect activity and control. Therefore, one unit per 6,000 cubic feet should be considered as an average need with adjustments made depending on specific conditions at place of usage. As with any method of insect control, best results are achieved when sanitation and other positive insect-prevention practices are followed.

This 10 oz can contains approximately 3,100 "shots" sufficient to sustain operation for a total of 780 hours (32 days when on a 24-hour basis) or 64 days on a 12-hour basis. It is suggested that the container be changed once a month (once every 2 months on a 12-hour basis).
