

PRECAUTIONARY STATEMENTS
CAUTION
 Do not use in nurseries, or rooms where
 sick or aged persons are confined. Do not install in
 any food handling or dispensing area.
 Chemical Hazards: Contents under pressure. Do
 not store near heat or flame. Do not puncture or incinerate
 container. Do not use above 50°F. may cause
 explosion.

DIRECTIONS FOR USE
 This is a contact insecticide designed to
 control house flies, house flies, and
 house flies. The dispenser activates the
 insecticide every 15 minutes. The insecticide
 is released in a fine mist. Do not use
 in areas where the insecticide is not
 required. The dispenser should be set to start one
 hour after control is desired and run one hour after control is
 needed. Keep in mind that such factors as air flow,
 size of space treated, humidity and room temperature all
 affect activity and control. Therefore, one unit per 6,000
 sq. ft. should be considered as an average need with adjust-
 ments made depending on specific conditions at place of
 use. As with any method of insect control, best results are
 achieved when sanitation and other positive insect-prevention
 practices are followed.
