Independence, LA 70443

Dear Mr. Mendoza:

Subject: Labeling per PR Notice 91-7
Purge II Concentrated Aerosol Insect Killer
EPA Reg. No.: 9444-01
Purge II Insecticide
EPA Reg. No.: 9444-06
Purge II Concentrated Aerosol Insect Killer 200mg
EPA Reg. No.: 9444-08
Purge II Insecticide 100mg
EPA Reg. No.: 9444-09
Purge 5/24 Insecticide
EPA Reg. No. 9444-11
Purge 5/24 Insecticide 200mg
EPA Reg. No. 9444-14
Submission: April 27, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

Except for 9444-01, the subject products contain the word "New" in their name. Current EPA policy provides the use of this term only for the first six months ~~on revised formulations~~. Since these products have all been registered beyond this time frame, the continued use of this phrase is not appropriate. Remove "new" from these names.

Use the correct, complete product name on each label. A pesticide is misbranded if it is offered for sale under the name of another pesticide FIFRA Sec. 2(q)(1)(C). You may not use the same name on several different registrations.

Sincerely,

Richard F. Mountfort
Product Manager 10
Insecticide & Rodenticide Branch
Registration Division (H7505C)

After

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Do not use in nurseries or rooms where infants, ill or aged persons are confined. Large drafts of forced ventilation may reduce or eliminate the insecticidal efficacy of these installations. Do not install directly over any food handling or dispensing area. Do not allow spray to contact plastic, painted or varnished surfaces.

Physical or Chemical Hazards

CAUTION: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

200 mg

INGREDIENT STATEMENT: New Purge II Insecticide contains a highly effective insecticide formulation specially designed for use in automatic mist dispensing units around food handling establishments, restaurants, hospitals, hotels, motels, stores, dairies, barns, and food processing establishments, where flies, mosquitoes, small flying insects and gnats are an annoyance.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in a cool, dry area away from heat or open flame.
DISPOSAL: Do not reuse empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate.

NET WEIGHT 6 oz/170 g

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Use in Aerosol Dispenser: One dispenser is to be installed for each 6,000 cubic feet of space. After the Dispenser activates the 200 mg metered dose, wait 15 minutes. After two hours of operation, suspend the dispenser in the air to kill a substantial number of mosquitoes and gnats present.

Usually the effectiveness of New Purge II is achieved within one hour after the Dispenser is installed. If, after one hour control is required, the Dispenser should be operated one hour before control is desired. After control is no longer needed, keep in mind that the air flow rate, size of space treated, humidity and temperature all affect insect activity and control. The number per 6,000 cubic feet should be considered with adjustments made depending on the place of usage. As with any method of pest control, the best results are achieved when sanitation and prevention practices are followed.

This 6 oz can contains approximately 1000 mg of active ingredient (sustain operation for a total of 400 hours on a 24-hour basis). It is suggested that the can be replaced twice a month.
