Mr. Ruben Mendoza
Waterbury Companies, Inc.
P.O. Box 640
100 Calhoun St.
Independence, LA 70443

Dear Mr. Mendoza:

Subject: Change in Product Name and Revised Labeling
Total Release Insecticide with Vapona
EPA Registration No. 9444-32
Total Release Insecticide with Vapona/Baygon
EPA Registration No. 9444-36
Your Applications Dated April 24, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Revise Precautionary Statements as follows:
"This product is fatal (poisonous) if swallowed . ."
2. For EPA Registration No. 9444-36 identify feed areas along with food areas i.e.,
"in food/feed areas of food . ."
"where food/feed is commercially . ."
"non-food/feed areas are . ."

Your product's new brand names, as listed above, are acceptable. Submit five copies of your final printed labeling before you release the products for shipment. Stamped copies of the labeling are enclosed for your records.

Sincerely,

George T. LaRocca
Product Manager 13

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
DANGER

This insecticide is poisonous if swallowed, inhaled or absorbed through the skin or eyes. Do not breathe vapor. Do not get vapor or liquid on skin or eyes. Do not get on clothing. Wear a full face mask or respirator (jointly approved by MSHA (Mine Safety and Health Administration) and by NIOSH (National Institute for Occupational Safety and Health) for protection against DDVP. Wear rubber gloves. Also wear clean, protective clothing with head and skin surfaces covered so that no bare skin is exposed. In case of contact, remove contaminated clothing immediately. Wash or shower thoroughly and put on clean clothing, including shoes. Wash hands, arms and face with soap and water before eating or smoking. Evacuate occupants and pets completely from premises before starting treatment. Keep all unprotected persons out of operational areas. Fish bowls must be covered or removed. House plants must be covered within 8 feet of release point.

PHYSICAL OR CHEMICAL HAZARDS
Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Must be used by licensed pest control operators. Use 1-6 oz can for every 6,000 cubic feet of space. During handling and operation, use face mask or respirator (jointly approved by MSHA (Mine Safety and Health Administration) and NIOSH (National Institute for Occupational Safety and Health) for protection against DDVP.

Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using this product in these areas, apply only when the facility is not in operation. Place can in center of area to be treated. Place newspaper under can. Push down tab on top of valve until it locks. Leave premises empty. The entire contents will release automatically after application. Do not reoccupy premises for at least 2 hours. Before reoccupying, open all doors and windows and ventilate thoroughly. Wash dishes and kitchen utensils thoroughly. Do not contaminate water supply or other food stuffs. Care should be used in handling empty container.

RAILROAD CARS

Railroad cars should be in transit or stationary and closed for a minimum of 2 hours before airing out. Tape DANGER placards to all door openings. Placards should include the following information: time and date treated, airing out time and type of material (7% Vapona treated). Treated boxcars should only be opened by trained personnel. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Store in a cool, dry area away from heat or open flame. DISPOSAL: Do not reuse empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate.

Authorized for use under USDA Inspection & Grading Programs.

BEST AVAILABLE COPY

total release insecticide
with Vapona

For Sale to, Use and Storage By Pest Control Operators:
Kills: Exposed Stages of Flies, Cockroaches, Fleas, Ticks and Silverfish

For Industrial and Home Use. For Use in Restaurants, Processing Plants, Homes, Warehouses, Railroad Car, Theaters and Industrial Plants.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center immediately. Drink one to two glasses of water. Induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not give anything by mouth to an unconscious person.

If Inhaled: Remove victim to fresh air. Apply artificial respiration if indicated. If on Skin: Remove contaminated clothing and wash affected areas with soap and water. If in Eyes: Flush eyes with plenty of water. Call a physician immediately.

Note to Physicians: DDVP is an organophosphate insecticide. If symptoms of cholinergic poisoning are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be used in conjunction with atropine.

ACTIVE INGREDIENTS:
Dichlorvos (2,2-dichlorovinyl dimethyl phosphite)
Related compounds
