

**PRECAUTIONARY STATEMENT
CAUTION:**

HAZARD TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Avoid breathing of vapor. Avoid contact with skin and eyes. In case of contact, immediately flush eyes with plenty of water. Wash skin with warm water and soap. Get medical attention if irritation persists. Do not contaminate food or food stuffs. Do not remain in treated areas. Vacate premises for at least 15 minutes after spraying. Ventilate the area after treatment is completed and before re-entering.

Do not apply directly to food. In commercial food handling facilities cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After space spraying food processing plants, thoroughly wash all equipment, benches, shelving, etc. where exposed food will be handled and rinse with potable water. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

Remove pets and birds, and cover fish aquariums before spraying.

Physical or Chemical Hazards: Contents under pressure. Do not puncture. Do not use or store near heat or flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.

**Directions for Use:
Use Indoors Only**

Flying Insects: Flies, mosquitos, small flying moths, wasps, gnats.

Calculate cubic feet of space to be treated. Close all doors and windows. Spray in a sweeping motion on all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Sweep up and destroy fallen insects. Repeat treatment as necessary.

Crawling Insects: Roaches, ants, spiders, silverfish.

Calculate square feet of floor area to be treated. Open all cabinets, storage areas, closets. Spray directly on insects or in cracks and crevices, where insects hide.

For roaches: For best results, spray directly on roaches and thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces, under sinks, behind stoves and refrigerators, food storage areas, and wherever these pests are suspected of hiding. Also spray around door and window frames. Repeat as necessary.

For spiders and silverfish: For control of these insects, frequent and repeated spraying of baseboards, windows, door frames, bookcases, and storage areas should be made. For adequate control, spray directly on insects.

For crickets: Spray thoroughly and frequently behind stoves, refrigerators, under cabinets, in food storage areas, and especially in closets, basements, and other damp areas. For best results, spray directly on insects.

For ants: Spray ant trails, nests and points of entry. For initial clean-up apply for 10-15 seconds per 100 square feet of floor area. Then periodically spray as a space aerosol 3-5 seconds per 100 cubic feet of space.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store in a cool dry place away from heat or open flame. **DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.
