PRECAUTIONARY STATEMENT

CAUTION

Hazard to HUMANS AND DOMESTIC ANIMALS

Harmful or severely. Avoid breathing of vapor. Avoid contact with skin and eyes. In case of contact, immediately flush eyes with plenty of water. Wash skin with warm water and soap. Get medical attention if irritation persists. Do not contaminate food or food stuffs. Do not remain in treated areas. Vacate premises for at least 15 minutes after spraying. Ventilate the area after treatment is completed and before re-entering.

Volumetric Treatment in Food Areas and/or Food Handling Establishments: Do not apply directly to food in commercial food handling facilities. Cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying food processing plants, thoroughly wash all equipment, benches, shelving, etc. where exposed food will be handled and rinse with potable water.

Volumetric Treatment in Homes: In the home, all food processed surfaces should be covered by the aerosol during treatment or thoroughly washed immediately. Otherwise pet and bird food can feed on them before treatment.

DO NOT SPRAY ON HOT SURFACES: Chemical under pressure. Do not spray on hot surfaces, near heat or flame. Exposure to temperatures of 100° F. or more causes burning. Never throw container or allow to incinerate.

DO NOT SWALLOW OR INHALE VAPOR: Vapors may irritate skin, eyes, nose, mouth, throat, lungs and stomach.

FIRST AID MEASURES

SKIN

In case of skin contact, immediately flush skin with plenty of water. Remove contaminated clothing. If irritation persists, seek medical attention. If symptoms of irritation persist, do not allow garment to dry on skin. Remove garment and discard. If garment is heavily stained, soak in warm water and repeat rinsing. Continue rinsing until no stain remains. If stain remains, repeat rinsing and soak again.

EYES: If eye contact occurs, immediately flush eyes with plenty of water. Hold eyelids open and continue rinsing. If irritation persists, seek medical attention. If symptoms of irritation persist, do not allow garment to dry on skin. Remove garment and discard. If garment is heavily stained, soak in warm water and repeat rinsing. Continue rinsing until no stain remains. If stain remains, repeat rinsing and soak again.

INHALATION: If inhaled, move to fresh air. If breathing is difficult, give oxygen. If breathing has stopped, begin resuscitation. If symptoms of irritation persist, do not allow garment to dry on skin. Remove garment and discard. If garment is heavily stained, soak in warm water and repeat rinsing. Continue rinsing until no stain remains. If stain remains, repeat rinsing and soak again.

INGESTION: If swallowed, do not induce vomiting. If vomiting occurs, do not allow garment to dry on skin. Remove garment and discard. If garment is heavily stained, soak in warm water and repeat rinsing. Continue rinsing until no stain remains. If stain remains, repeat rinsing and soak again.

CRACK & CREVICE APPLICATION: Food areas and/or food handling establishments spray in cracks and crevices, using the crack and crevice nozzle provided. A crack and crevice application can be done in food areas and/or food handling establishments while these facilities are in operation by taking care not to spray on food or food products.

FOR CLOTHES & FURNITURE: Turn clothes inside out. Spray directly on insects. Spray along edges of bed, sofa, chair, windows, doors, trimmer, cockroaches and stink bugs. Areas should be treated. For adequate control, spray directly on insects.

FOR CHICKENS: Spray thoroughly and frequently behind stoves, refrigerators, under cabinets, in food storage areas and especially in closets, basements and other damp areas. For best results spray directly on insects.

FOR FLEAS IN BUILDINGS: Close windows and doors. Hold aerosol 36" above floor and direct fog toward floor and lower walls at a rate of 10 seconds per 100 sq. feet making sure that all floor, sofa, and chair surfaces are contacted. Repeat treatment after 7 days.

FOR ANTS: Spray ant trails, nests and points of entry. For initial clean-up, apply for 10-15 seconds per 100 sq. feet of floor area. Then periodically spray as a space aerosol 3-5 seconds per 100 cubic feet of space.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate.
