

ACCEPTED
 21 APR 1994
 Under the Federal Insecticide, Fungicide, and Rodenticide Act, this product has been registered by the Environmental Protection Agency, Washington, D.C. 20460
 9444-41

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS & DOMESTIC ANIMALS
 CAUTION**

Harmful if swallowed. Avoid breathing of vapor. Avoid contact with skin and eyes. In case of contact, immediately flush eyes with plenty of water. Wash skin with warm water and soap. Get medical attention if irritation persists. Do not contaminate food or foodstuffs. Do not remain in treated areas. Vacate premises for at least 15 minutes after spraying. Ventilate the area after treatment is completed and before re-entering.

Volumetric Treatment in Food Areas and/or Food Handling Establishments: Do not apply directly to food in commercial food handling facilities. Cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing facilities, thoroughly wash all equipment, benches, shelving, etc., with an effective cleaning compound followed by a potable water rinse prior to use.

Volumetric Treatment in Homes: In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FLYING INSECTS: Flies, Mosquitoes, Small Flying Moths, Wasps, Gnats—Calculate cubic feet of space to be treated. Close all doors and windows. Spray in a sweeping motion to all parts of the room. Apply for 1-3 seconds per 1,000 cubic feet of space. Sweep up and destroy fallen insects. Repeat as necessary.

CRAWLING INSECTS: Cockroaches, Ants, Spiders, Silverfish: General Volumetric Treatment—Open cabinets and doors in area to be treated. Shut off air conditioners, fans, and close doors and windows before spraying. Spray for 20 seconds per 1000 cubic feet of space (for 15 lb. size: 10 seconds per 1000 cubic feet). Direct spray toward areas suspected of harboring insects. Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. Keep area closed for 15 minutes. Open and ventilate before reoccupying. Repeat treatment as necessary.

FOR COCKROACHES: For best results, spray directly on cockroaches and thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces, under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. Also, spray around door- and windowframes. Repeat as necessary.

CRACK & CREVICE APPLICATION: Food areas and/or food handling establishments, spray in cracks and crevices using the crack and crevice nozzle provided. A crack and crevice application can be done in food areas and/or food handling establishments while these facilities are in operation by taking extreme care not to contaminate surfaces.

VOLUMETRIC TREATMENT FOR INACCESSIBLE VOIDS (Attics, False Ceilings, Well and Equipment Voids): For crack and crevice application, calculate void volume in cubic feet. Treat 20 seconds per 1000 cubic feet (for 15 lb. size: 10 seconds per 1000 cubic feet). Repeat as necessary.

FOR SPIDERS AND SILVERFISH: For control of these insects, frequent and repeated spraying of baseboards, windows, doorframes, bookcases and storage areas should be made. For adequate control, spray directly on insects.

FOR CRICKETS: Spray thoroughly and frequently behind stoves, refrigerators, under cabinets, in food storage areas and especially in closets, basements and other damp areas. For best results, spray directly on insects.

FOR FLEAS IN BUILDINGS: Close windows and doors. Hold aerosol 36 inches above floor and direct fog toward floor and lower walls at a rate of 10 seconds per 100 square feet making sure that all floor, sofa, and chair surfaces are contacted. Repeat treatment after 7 days.

FOR ANTS: Spray ant trails, nests and points of entry. For initial clean-up, apply for 10-15 seconds per 100 square feet of floor area. Then periodically spray as a space aerosol 3-5 seconds per 100 cubic feet of space.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate.

WARNING: Contains 1,1,1-trichloroethane a substance which harms public health and the environment by destroying ozone in the upper atmosphere.

Authorized for use under USDA Inspection & Grading Programs.
