Cline-Ruckner, Inc.
17120 Alburdis Avenue
Artesia, Ca. 90701

Dear Ms. Rambo:

Subject: Proposed Labeling Change in Letter Dated 5/8/87
EPA Registration No. 9444-54

The amendment referred to above, submitted in connection with registration under section 2(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the following comments.

1. Submit a revised Confidential Statement of Formula filled out according to the enclosed guide. Be sure to provide Certified Limits of the pure active ingredient.
2. The statement "After space spraying food processing plants, thoroughly wash all equipment, benches, shelving, etc. where exposed food will be handled and rinse with potable water." must be replaced with "After space spraying food processing plants, thoroughly wash with an effective cleaning compound all equipment, benches, shelving, etc. where exposed food will be handled and rinse with potable water."
3. Replace the statement "Do not apply while food processing is underway." with "When using as a space spray do not apply while food processing is underway. Do not use as a space spray in the lab."

**PRECAUTION STATEMENTS
CAUTION**

Hazardous to Humans & Domestic Animals: Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After space spraying food processing plants, thoroughly wash all equipment, benches, shelves, etc. where exposed food will be handled and rinse with potable water. Do not spray natural or synthetic fabrics.

Remove pets and birds and cover fish aquariums before spraying.
PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not puncture. Do not use or store near heat or flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(1) **Flying Insects:** (non-residential application only) House flies, mosquitoes, gnats, small flying moths (millers). Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Spray 1-3 seconds per 1,000 cubic feet. Keep room closed for at least 15 minutes. Ventilate room when treatment is completed. Sweep up and destroy fallen insects. Repeat treatment as necessary.

Flies and Yellowjackets: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Residential spraying limited to outdoor application only.

Bees in Buildings: Only use for bees inside building or well voids where bees are undesirable. Residential spraying limited to external wall application only.

(2) **Crawling Insects:** Roaches, waterbugs, earwigs, grain mites, fleas, sowbugs, spiders, centipedes, adult confused flour beetles, saw toothed grain beetles, shiny spider beetles, carpet beetles. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

Commercial Crack & Crevices Only: Spray in cracks and crevices using the crack & crevice extension nozzle provided. This can be done in restaurants and food handling establishments while the facility is in operation taking extreme care not to contaminate surfaces or spray as a space spray.

Residential Crack & Crevices Only: Spray in cracks and crevices using the crack & crevice extension nozzle provided. Extreme care should be taken not to spray natural or synthetic surfaces in the home. Do not use as a space spray in the home.

In hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patient to room until after ventilation.

Ants: Spray trails, nests, and points of entry. Spray on ants where possible. Repeat as necessary. Residential treatment limited to outdoor application or crack & crevice treatment indoors, taking care not to spray fabrics.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Storage: Store in a cool, dry place away from heat or open flame.
Container Disposal: Do not reuse empty container. Replace cap, wrap container and dispose empty container in trash collection or by other approved state or local procedure. Do not puncture or incinerate.
