Purge CB-40 S-100 WB
EPA Registration No. 9444-85
Purge Greenhouse Spray
EPA Registration No. 9444-87
Your Submissions Dated January 12, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

For EPA Registration Nos. 9444-80 and 9444-87, add "Contains petroleum distillate" as a substatement to the ingredient statement as new labels are printed.

-2-

For EPA Registration No. 9444-70, please explain the restriction for use against certain insects listed in California.

Although we are approving the revised copy under EPA Registration No. 9444-69, we suggest that you not alter text and resubmit showing a prior approval stamp.

Sincerely yours,

PH

PRECAUTIONARY STATEMENTS
CAUTION

Hazards to Humans & Domestic Animals: Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Foods should be covered or removed during treatment. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Do not remain in treated areas and ventilate the area after treatment is completed.

Remove pets, birds and cover fish aquariums before spraying.

Physical or Chemicals Hazards: Contents under pressure. Do not puncture. Do not use or store near heat or flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do not reuse empty container. Replace cap, wrap container and put in trash collection. Do not incinerate or puncture.

FOR USE IN HOMES:

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

ANTS: Apply to ant trails and around door sills, window frames and other places where ants may enter.

ROACHES, EARWIGS, SOWBUGS, SPIDERS AND CENTIPEDES:

Contact Spray: Spray thoroughly into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

Residual Spray: Spray baseboards, cracks and crevices around door and window frames, and other hiding places such as closets, in back of and under appliances, sinks and cupboards in the kitchen and bathroom. In basements, spray hiding places in cracks and crevices, shower walls and dark places. Spray at the rate of 3 to 4 seconds per linear foot at a distance of 12 to 14 inches from the surface. Repeat as necessary.

OUTDOORS: Reduce houseflies, biting flies and flying moths (millers) by spraying their resting areas. Spray areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic feet of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
