

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

May be harmful if swallowed, absorbed or inhaled through skin. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling. Do not allow children or pets to contact treated surfaces until spray has dried. Apply as a surface spray only. Do not spray in rooms or use on plants. Do not make spray to contact food, feedstuff or water supplies. Thoroughly wash dishes and food handling surfaces contaminated with this product. Remove pets and cover food equipment before spraying.

STATEMENT OF PRACTICAL TREATMENT

If on skin: In case of contact, remove contaminated clothing and immediately wash skin with soap and water.
If in eyes: Flush eyes with plenty of water. Call a physician.
If inhaled: Remove victim to fresh air. Apply respiration if indicated.
If Swallowed: Drink 1 or 2 glasses of water and induce vomiting by forcing finger to back of throat. Call a physician.

PHYSICAL HAZARDS

Contents under pressure. Do not use in strong heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
To operate: Hold can upright. Direct orifice toward the surface to be treated and press the actuating button. Do not use as a space spray.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

To Kill ants, carpet beetles, earwig, cockroaches, crickets, earwigs, termites, psyllids, silverfish and spiders. Thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility connections. Pests driven out of hiding places should be sprayed directly. Spray all holes, nests and points of entry.

To Kill fleas and home dog ticks, apply thoroughly as a spot treatment to selected areas such as pet beds and resting quarters, and nearby cracks and crevices, along and behind baseboards, under and over frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product. Treat your pets with a product registered for application to animals to control the source of your flea infestation.

To Control flies, gnats, houseflies, mosquitoes, small flying insects, wasps and yellow jackets, use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized roosting areas, such as under eaves, porches, pergolas and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

Application Within Food Handling Establishments (Places other than private residences in which exposed food is held, processed, prepared or served) including, but not limited to areas for receiving, storage, packing, cleaning, bottling, wrapping, labeling, unloading, loading, unloading, waste storage and disposal processing systems (such as drains, waste oil, spraying and drying areas) when food is exposed and facility is in operation. Use as a crack and crevice treatment in and around built food and nonfood areas to control ants, wasps, cockroaches, silverfish, spiders and earwigs. Apply in small amounts directly into cracks and crevices, in joints between different elements of construction between equipment and floor openings leading to walls and hollow spaces in walls, equipment legs and bases on conduits, utility housings, junction or switch boxes. Prior to application deenergize electrical equipment. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

Application Within Food Serving Areas (Facilities where food is served, such as dining rooms, but excluding areas where food may be prepared or held). Apply as a spot treatment to selected surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. Do not apply when facility is in operation or food is exposed.

Always maintain all rules of use, storage or handling of this material not in direct accordance with directions given hereon.
