

CRACK AND CREVICE INJECTION USE ONLY
PRECAUTIONARY STATEMENT - CAUTION
HARMFUL TO HUMANS AND DOMESTIC ANIMALS

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly after using. Avoid contamination of food, utensils, and food preparation areas. Should illness occur, get prompt medical aid. In Physician - Atropine sulfate is antidote. If swallowed, drink 1 or 2 glasses of water and induce vomiting by touching back of the throat with finger. Repeat until vomit is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person. If inhaled, remove victim to fresh air. Apply respiration if indicated. If on skin, remove contaminated clothing and wash affected area with soap and water. If in eyes, flush eyes with plenty of water. Call a physician immediately if irritation persists.

ENVIRONMENTAL PRECAUTIONS:
 This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS:
 Contents under pressure. Do not puncture or incinerate container. Do not use at high heat, heat or open flame. Exposure to temperatures above 130°F may cause bursting. Do not spray on plastic, painted or varnished surfaces or directly onto any electronic equipment such as radios, televisions, computers, etc.

DIRECTIONS FOR USE:
 It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Purge Baygon Crack & Crevice Insecticide is for use only with injection tube and for injecting into cracks and crevices where insects may be hiding, living and breeding. Place injection tube 1/4" into cracks, crevices, holes and other small openings where insects may be a problem. Release approximately 1 second spray per spot. In serious infestation, if possible, place spots approx. 12" apart. In light infestation of preventative treatment, place spots approx. 3 feet apart. See the additional directions below for effective control of specified insects. **CHARMING INSECTS: COCKROACHES, WATERBUGS, SPIDERS, BROWN DOG TICKS, EARWIGS, CRICKETS, GRASSHOPPERS, MILLIPODES, CENTIPEDES.** Spray into hiding places such as cracks and crevices, under areas, openings, around pipes and sinks, under refrigerators, behind furnaces, under tables, under beds and elsewhere. Spray directly on insects in these locations where possible. Repeat as necessary.

HOUSEHOLD & BARNHOUSE: Spray cracks and crevices in baseboards, door frames, bookshelves and storage areas. Spray directly on insects in these locations where possible. Repeat as necessary.

ANTS: Spray into trails, nests, and points of entry around doors, windows, structural cracks and crevices. Spray directly on insects in these locations where possible. Repeat as necessary.

GRASSHOPPERS, PLANE BEETLES, CHOCOLATE MOths, DRUG STORE BEETLES (in exposed adult and larval stages) and threatening stages of BROWNISH BEETLES, ELIMINAL BEETLES, CLUSTER FLIES and CLOVER BITES. Contact as many insects as possible when treating infested areas such as cracks and crevices in wall voids, around windows and door frames, under siding, in machinery and in dark secluded areas. Repeat as necessary.

Localized treatment of wood destroying insects: CARPENTER ANTS, CARPENTER BEES: Locate source of infestation. Inject 5-10 seconds spray into insect tunnels and cavities. For Carpenter bees, seal entrance openings with small pieces of standard steel wool after spray application.

FOR TERMITES: Locate source of infestation. Apply to voids and channels in damaged wooden members of a structure or to tracks, spaces or bearing joints between wooden members of a structure. Inject 5-10 seconds spray into insect tunnels and cavities. This application is not a substitute for other termite treatments, but is merely a supplemental treatment. This product is intended to kill workers or winged reproductive forms, which may be present in the treated area.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:
 For use in Food Handling Establishments, Commercial or Institutional Kitchens, Dining Areas and Portions of Restaurants, Supermarkets, Food Plants, Food Warehouses, Hospitals, Hotels, Halls, Mobiles, Schools, Meat Packing Plants. Limited to Crack and Crevice treatment only -- apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes in switch boxes, conduits or hollow equipment legs where insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces. Application of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.

DISPOSAL:
 Do not reuse empty container. Wrap container and put in trash collection.

Manufactured by CLINE-BUCKNER, INC., Central, CA 95021 & Independence, IA
