Localized treatment of wood destroying insects: **CARPENTER ANTS, CARPENTER BEES, and TERMITES.** Locate source of infestation. Inject 5-10 second spray into insect tunnels and cavities. For **CARPENTER BEES** seal entrance openings with small pieces of stainless steel wool after spray application. The purpose of this treatment is to kill workers or winged reproductive forms which may be present in the treated channels and spaces at the time of treatment. Such application is not intended as a substitute for mechanical alteration, soil treatment or foundation treatment.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

For Use In: Restaurants, Homes, Supermarkets, Meal Packing Plants, Food Processing Plants, Food Storage Areas of Warehouses and other Food Handling Establishments

Limited to Crack & Crevice Treatment Only. Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces. Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store in a cool dry area away from heat or open flame. **PESTICIDE DISPOSAL:** Pesticide that cannot be used according to label instructions must be disposed of according to applicable federal, state and local procedures. **CONTAINER DISPOSAL:** Replace cap and discard empty container in trash, sanitary landfill, or by other approved state and local procedures. Do not incinerate or puncture.
