

PRECAUTIONARY STATEMENTS
CAUTION

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Harmful if swallowed or absorbed through skin. Avoid breathing of vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food in commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying, food processing plants should be thoroughly washed. All equipment, bottles, sprayers, etc. while exposed to food will be handled and rinsed with potable water. In the home, food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

Remove poultry and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Drink fluids and induce vomiting. Seek medical attention immediately.

If in Eyes: Flush eyes with plenty of water. Seek medical attention if irritation persists.

If on Skin: Wash with plenty of soap and water. Seek medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw containers into fire or incinerate.

Do not spray on plastic, painted or varnished surfaces or directly into electrical equipment such as radios, TVs, computers, etc.

Do not use this product in or on electrical equipment due to the possibility of fire or explosion.

DIRECTIONS FOR USE

This is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

FLYING INSECTS: Flies, Mosquitoes, Small Flying Moths, Wasps, Gnats. Calculate cubic feet of space to be treated. Close all doors and windows. Spray in sweeping motion at all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Wear goggles and destroy fallen insects. Repeat treatment as necessary.

CRAWLING INSECTS: Cockroaches, Ants, Spiders, Silverfish. Calculate square feet of area to be treated. Open all cabinet, storage areas and closets. Spray directly on insects and in all crevices where insects hide.

FOR COCKROACHES: For best results, spray directly on cockroaches. Apply to all parts of the room, especially in the kitchen. Spray in sweeping motion at all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Wear goggles and destroy fallen insects. Repeat treatment as necessary.

FOR SPIDERS AND SILVERFISH: Spray directly on spiders and silverfish. Apply to all parts of the room, especially in the kitchen. Spray in sweeping motion at all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Wear goggles and destroy fallen insects. Repeat treatment as necessary.

FOR CRICKETS: Spray thoroughly and frequently behind doors, refrigerator, and other storage areas, and especially in cracks, crevices, and other small openings. For best results, spray directly on insects.

FOR ANTS: Spray ant trails, nests and points of entry. For best results, apply for 10 to 20 seconds per 100 square feet of floor area. Then periodically spray as a space around 3-5 seconds per 1000 cubic feet of space.

FOR INDIANMEAL MOTHS AND ANGOUMOIS GRAIN MOTHS: Close doors and windows. Direct spray into all parts of room especially around stored food product containers, pantries and darkened areas. Spray 7 to 10 seconds for each 1,000 cubic feet of space. Keep area closed for 15 minutes following treatment. Repeat application as necessary or as needed.

FOR CARPET BEETLES: Spray directly on beetles, carpet areas, floor, drapes and carpets. Repeat treatment as necessary.

FOR CONFUSED FLOUR BEETLES, SAWTOOTHED GRAIN BEETLES, GRANARY WEEVILS, RICE WEEVILS, RED FLOUR BEETLES, GRAIN MITES: Spray directly on insects and in all parts of the room, especially in the kitchen. Spray in sweeping motion at all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Wear goggles and destroy fallen insects. Repeat treatment as necessary.

FOR BEDBUGS: Spray directly on bedbugs. Apply to all parts of the room, especially in the bedroom. Spray in sweeping motion at all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Wear goggles and destroy fallen insects. Repeat treatment as necessary.

FOR FLEAS: Spray sleeping quarters, bedding, furniture, and other parts of the room, especially in the bedroom. Repeat treatment as necessary. Use only a regular pet spray on pets.

TREATMENT FOR INACCESSIBLE VOIDS (Attic, false ceilings, wall and equipment voids, exposed stages, cracks, crevices, spider webs, water traps, etc.): Calculate void volume and treat at a rate of 60 seconds per 1,000 cubic feet (15 lb. size) or 10 seconds for 1,000 cubic feet. Spray by forcing air through into cracks, crevices, and other small openings into void space. Repeat treatment as necessary.

NOTICE TO APPLICATOR: During any volumetric treatment, what a pesticide applicator jointly approved by the Mining Enforcement & Safety Administration (formerly U.S. Bureau of Mines) and the National Institute for Occupational Safety & Health under revisions of 39 CFR Part 11.

OUTDOOR GROUND APPLICATION: To kill fleas, mosquitoes and gnats in open areas near buildings and in campgrounds, best results are obtained when temperature is 75°F or less and there is wind speed of 5 miles per hour or less. Apply at a rate of 60-90 seconds per acre (for 15 lb. size) or 20-40 seconds per acre. Spray in wide swaths across area to be treated. Repeat treatment as necessary.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container, tightly closed, in a cool, dry place away from heat and sunlight.

DISPOSAL: Do not pour contents into water, food, or feed. Do not dump into drains, sewers, or other waterways. Do not incinerate. Do not bury. Do not dump into landfills.
