

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number: 9444-129
Date of Issuance: AUG 3 1998

Term of Issuance: Unconditional

Name of Pesticide Product: ROACH KIL COMMERCIAL

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
WATERBURY COMPANIES, INC.
P O BOX 640/129 Calhoun Street
Independence, LA 70443

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. With regards to labeling, you must make the labeling changes listed below.

- On your final printed labels revise the phrase following Pretreatment of New Construction to read:

(Preventive treatment for cockroaches and drywood termites)
- Revise the EPA Registration Number to read, "EPA Registration Number 9444-129"

Signature of Approving Official

Marion J. Johnson, Jr.

Date: AUG 3 1998

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to A-79 Enclosure for a further description of final printed labeling.

4. Enclosed is a copy of your label stamped "Accepted with Comments." This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for control reassessment of pesticide. EPA may require submission of data at any time to maintain the registration of your product.

Marion J. Johnson, Jr.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DOMESTIC APPLICATION

COCKROACHES, PALMETTOBUGS, WATERBUGS, ANTS (excluding Carpenter Ants), AND SILVERFISH: No powder should be visible in living areas after application. Any powder visible after application must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets. Avoid contamination of food and foodstuffs. Do not use in serving areas when food is exposed. Do not use in edible product areas. Apply approximately 1 pound for every 1000 square feet of living space.

Apply this product liberally in areas where cockroaches hide or nest; under and behind appliances; in plumbing voids accessible through holes, around plumbing and drains; in void areas under kitchen and bathroom cabinets (Note: Many cabinets have a gap at the top of the kickplate which offers easy access. If not, drill a small hole at the top of the kickplate.); in drawer walls of cabinets, in cracks around windows, doors, baseplates, fixtures and cabinets; in utility rooms, under and behind hot water heaters, washers and dryers. Be sure to dust plumbing voids; in attics, around the perimeter and vent pipes, above kitchens and baths; around the perimeter of dropped ceilings; into pits of elevator shafts, dumbwaiters and trash chutes; under and behind pallets and boxes in storerooms.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container away from food and foodstuffs. Keep products in a locked storage area.

DISPOSAL: Do not reuse this container. Wrap and place in trash collector.

DIRECTIONS FOR USE

WITHIN FOOD AREAS AND NON-FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served.

Care should be taken to avoid depositing the product onto surfaces which are exposed or introducing the material into the air. Avoid contamination of food or food processing surfaces. APPLICATIONS OF THIS PRODUCT IN THE FOOD AREA OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

Apply in small amounts directly into cracks and crevices using a bellows duster or other suitable equipment capable of applying insecticide directly. Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas, when food is exposed and facility is in operation, also would be considered a food area.

SERVING AREAS: Facilities where prepared foods are served, such as dining rooms, but excluding areas where food may be prepared or held. Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

NON-FOOD AREAS: Includes garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

SEWER TREATMENT: Apply this product at a rate not to exceed 8 lbs. per 3000 square feet using portable blowers or air pressure tanks.

PRETREATMENT OF NEW CONSTRUCTION (Preventive treatment for cockroaches and termites): Apply powder to baseplates and plumbing voids at the rate of 4 lbs per 1000 square feet. In attics, apply powder around perimeter of attics and around vent stacks at the rate of 4 lbs per 1000 square feet.
