SHAKE WELL BEFORE USING

**PRECAUTIONARY STATEMENTS
WARNING**

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Causes substantial but temporary eye injury. Do not get in eyes or on face. Wear goggles or face shield when applying. Wash thoroughly with soap and water after handling and before smoking or eating. Remove contaminated clothing and wash before reuse. Avoid contamination of food, utensils and food preparation areas.

STATEMENT OF PRACTICAL TREATMENT

If on Skin: Remove contaminated clothing and wash affected areas with soap and water.
If in Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Do not store near heat or open flame. Exposure to temperatures above 130°F may cause discoloration of painted or varnished surfaces. Do not spray directly into any electrical equipment such as radios, televisions, computers, meters or into outlets and switches or into electrical conduits where the powdery residue may cause shorted electrical contacts and circuits.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake well before use. Before storing after use, invert container to clear valve and spray nozzle. SPRAY IN UPRIGHT POSITION.

This insecticide is for use only with injection tube and for use in void spaces where insects may be hiding, lying and breeding. Place in holes and other small openings where insects may be a problem. One quart per spray. In spray application, place spots approximately 12 inches apart. In injection treatment, place spots approximately 3 feet apart. In a room, spray the crack which sprays. Move at the rate of 10 feet per second. Repeat application every 30 seconds in light infestation. This powdery spray leaves a white residue which is visible to the eye. See the additional directions below for effect.

CRAWLING INSECTS: Cockroaches, Waterbugs, Earwigs, Crickets, Millipedes. Spray in hiding places such as cracks and crevices, under sinks, under operators, behind baseboards, coffee makers, and directly on insects in these locations where possible. Apply to chairs.

BOOKLICE & SILVERFISH. Spray cracks and crevices in book storage areas. Spray directly on insects in these locations where possible.

ANTS. Spray into trails, nests and points of entry around structures. Spray directly on insects in these locations where possible.

CARPENTER ANTS AND TERMITES. Localized treatment of wood infestation. Inject spray 5-10 seconds into insect tunnels and voids.

VOLUME TREATMENT OF INACCESSIBLE VOIDS: In case of light infestation, attics, crawl spaces and manholes where human contact with the exposed stacks of Cockroaches, Waterbugs, Earwigs, Crickets, Booklice, Silverfish and Ants. Calculate void horizontal surface area in square feet. Spray by placing injection tube into crack or opening into space. Repeat every thirty days.

APPLICATIONS IN FOOD HANDLING ESTABLISHMENTS which handle or process prepared or serving.

FOOD AREAS - APPLICATION LIMITED TO CRACK & CREVICE AREAS for kitchen storage, packing, loading, bottling, wrapping, storage and distribution systems. In distribution systems, exposed areas of the system should be treated. In storage areas, application should be made to the cracks and crevices.

Apply spray directly into cracks and crevices around the elements of electrical equipment and electric panels in walls, equipment bases where insects hide. Care should be taken to avoid contact with equipment and electrical components.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF RESTAURANTS, HOTELS, SUPERMARKETS, MOTELS, SHIPS, TRAINS, TRUCKS, PLANES, UTILITIES, MEAT PACKAGING AND FOOD PROCESSING PLANTS, FOOD STORAGE AREAS, RESTAURANTS AND OTHER FOOD HANDLING ESTABLISHMENTS, SCHOOLS, WAREHOUSES, AND OTHER COMMERCIAL BUILDINGS.

STORAGE & DISPOSAL

Do not contaminate water, food, feed, storage or disposal. **STORAGE:** Store in a cool, dry area away from heat or open flame. **DISPOSAL:** Do not use empty container. Replace cap and return to trash. Do not puncture or incinerate.
