DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN Food service and preparation areas, food processing plants, restaurants, clubs, stores, supermarkets, bottling plants, warehouses, buildings, factories, offices, laboratories, lavatories, ships, planes (cargo areas), hotels, motels, hospitals, nursing homes, schools, day-care centers, funeral homes, kennels, farms, barns, stables, dairies, milk and egg handling areas of dairies and chicken houses.

This product is engineered for use in automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 and/or 30 and/or 45 minutes. Within 24 hours the area is relatively free of flies, mosquitoes, gnats, and small flying moths and with continued use reduces annoyance from them. Effectiveness of this product will be noticeable within one hour after the Dispenser is activated. Recommended use is for 24 hours: but if less than 24 hour use is required, the Dispenser should be set to start one hour before control is desired and run one hour after control is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and control. Therefore, one unit per 6,000 cubic feet of unobstructed space should be considered as an average with adjustments made depending on specific conditions at usage site. As with any method of insect control, best results are achieved when sanitation and other positive insect prevention practices are followed.

Do not use in aircraft cabins. It is suggested that the container be changed once a month.

OPERATION: Remove protective cap from top of can and insert can in dispenser. Suspend dispenser 7 feet from the floor and at a point where wind flow will carry the particles throughout the room.

Authorized for use under USDA Inspection and Grading Programs.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store near heat or open flame. Store in cool dry area away from children.

DISPOSAL: Do not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1800-CLEANUP for disposal instructions.
