

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

9444-150

DATE OF ISSUANCE

28 NOV 1994

TERM OF ISSUANCE

Conditional

NAME OF PESTICIDE PRODUCT

Aerosol Boric Acid

NOTICE OF PESTICIDE: ☐ REGISTRATION
☐ REREISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Reg # 9444-150

PM-14

153

Waterbury Companies, Incorporated
100 Calhoun Street
Independence, Louisiana 70443

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data, and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label revisions prior to releasing the product for shipment:

a. Add the phrase "EPA Registration No. 9444-150" to the label.

b. Delete any label reference to the following pests: Cockroaches, waterbugs, and termites. Efficacy data is required to support the use of this product for these insect pests.

c. Delete the following text from the **FOR USE IN** section of the product label: meat packaging and food processing plants, food storage areas...and other food processing establishments.

d. Revise the **PRECAUTIONARY STATEMENTS** section of the product label to read as follows:

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling.

e. Revise the **STATEMENT OF PRACTICAL TREATMENT** section to appear as follows:

If in eyes: Flush eyes with plenty of water. Contact a physician if irritation persists.
If on skin: Wash with plenty of soap and water. Get medical attention.

f. Remove any label direction which indicates that this product should be sprayed directly on pests when possible. This practice may leave visible residue in areas which may be accessible to children and pets.

g. Include the following text on the product label:

Reapply as necessary. Any powder visible after application must be removed. Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants, or other places where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contaminate of feed and foodstuffs.

h. Expand the **STORAGE** section of the product label to appear as follows: Store in a cool, dry area away from heat and open flame. Do not store where children or pets may gain access.

3. The **dermal sensitization** study has been graded *supplementary* and is not acceptable to support this product registration. A new study must be generated and submitted to the Agency for review within 120 days of the date of this Registration Notice. A copy of the precautionary review of the five acute toxicity studies has been enclosed for your records.

4. Submit one (1) copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Sincerely,

Mr. Marion J. Johnson, Jr.
Acting Product Manager 10
Insecticide-Rodenticide Branch
Registration Division

SHAKE WELL BEFORE USING

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Causes substantial but temporary eye injury. Do not get in eyes or on clothing or skin. Wear goggles or face shield when applying. Wash thoroughly with soap and water after handling and before smoking or eating. Remove contaminated clothing and wash before reuse. Avoid contamination of food, utensils and food preparation areas.

STATEMENT OF PRACTICAL TREATMENT

If on Skin: Remove contaminated clothing and wash affected areas with soap and water.
If in Eyes: Flush eyes with plenty of water. Get medical attention immediately.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not spray on plastic, painted or varnished surfaces. Do not spray directly into any electronic equipment such as radios, televisions, computers, motors or into outlets and switches or any other location where the powdery residue may foul or short electric contacts and circuits.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE. Before storing after use, invert container and spray until only air comes out to clear valve and spray nozzle. **SPRAY IN UPRIGHT POSITION ONLY.**

This insecticide is for use only with injection tube and for injecting into cracks and crevices and void spaces where insects may be hiding, lying and breeding. Place injector tip 1/2 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release approximately 1 second of spray. In serious infestation, spray approximately 12 inches apart. In light infestation or preventive treatment, spray approximately 3 feet apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of 1 linear foot per second in heavy infestation or 3 feet per second in light infestation. This powdery spray leaves a white residue. Should misapplication occur, wipe off visible residue. See the additional directions below for effective kill of specific insects.

CRAWLING INSECTS: Cockroaches, Waterbugs, Earwigs, Crickets, Sowbugs, Millipedes, and Centipedes—Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes and manholes. Spray directly on insects in these locations when possible. Apply into cracks and crevices, under tables and chairs.

BOOKLICE, SILVERFISH, & FIREBRATS: Spray cracks and crevices in baseboards, doorframes, bookcases and storage areas. Spray directly on insects in these locations when possible. Repeat as necessary.

ANTS: Spray onto trails, nests and points of entry around doors, windows, structural cracks and crevices. Spray directly on insects in these locations when possible. Repeat as necessary.

GRAIN WEEVILS, FLOUR BEETLES, DRUGSTORE BEETLES (exposed adult and larval stages and hibernating stages of) **BOXELDER BUGS, ELM LEAF BEETLES, CLUSTER FLIES, AND CLOVER MITES:** Contact as many insects as possible when treating infested areas such as cracks and crevices, in wall voids, around windows and doorframes, under siding, in machinery, and in dark, secluded areas. Repeat as necessary.

CARPENTER ANTS, CARPENTER BEES, AND TERMITES: Localized treatment of wood-destroying insects. Locate source of infestation. Inject spray 8-10 seconds into insect tunnels and cavities.

VOLUMETRIC TREATMENT OF INACCESSIBLE VOIDS: (false ceilings, wall voids, equipment voids in attics, crawlspaces and manholes where human contact with treated surfaces will be minimal)—For exposed stages of Cockroaches, Waterbugs, Earwigs, Crickets, Sowbugs, Millipedes, Centipedes, Booklice, Silverfish, Firebrats, Ants, and Beetles—calculate void horizontal surface area and treat at a rate of 1 second per square foot. Spray by placing injection tip into crack or crevice, hole or other small opening 1/2" into void space. Repeat use every thirty days.

APPLICATIONS IN FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS—APPLICATION LIMITED TO CRACK & CREVICE TREATMENT ONLY: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) also would be considered a food area.

Apply in small amounts directly into cracks and crevices using injection tube in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do not use empty container. Replace cap, wrap empty container in newspaper and discard in trash. Do not puncture or incinerate container.

Manufactured by
**WATERBURY
COMPANIES, INC.**
P. O. Box 1812
Waterbury, CT 06722
Made in USA

AEROSOL BORIC ACID

KILLS: Cockroaches, Waterbugs, Earwigs, Crickets, Sowbugs, Millipedes, Centipedes, Booklice, Silverfish, Firebrats, Ants, Grain Weevils, Flour Beetles, Drugstore Beetles, Boxelder Bugs, Elm Leaf Beetles, Clover Mites, Cluster Flies, Carpenter Ants, Termites, and Carpenter Bees

FOR USE IN: Hospitals, Supermarkets, Motels, Hotels, Homes, Apartments, Buses, Boats, Ships, Trains, Trucks, Planes, Utilities, Meat Packaging and Food Processing Plants, Food Storage Areas, Restaurants and other Food Handling Establishments, Schools, Warehouses, and other Commercial Buildings

ACTIVE INGREDIENT:

Orthoboric Acid	20.0%
INERT INGREDIENTS	80.0%
	100.0%

CONTAINS PETROLEUM DISTILLATES

Contains no CFCs or other Ozone Depleting Substances.
Federal regulations prohibit CFC propellants in aerosols.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Special precautions should be taken so that all residue will be out of reach of children or domestic animals. Avoid contamination of food and foodstuffs.

See Back Panel for Additional Precautionary Statements.
