

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

9444-186

Date of Issuance:

SEP 29 2008

NOTICE OF PESTICIDE:

☐ Registration☒ Reregistration
(under FIFRA, as amended)

Term of Issuance: Unconditional

Name of Pesticide Product:

CB® Invader® with Propoxur

Name and Address of Registrant (include ZIP Code):

Waterbury Companies, Inc.
129 Calhoun Street
Independence, LA 70443

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

Please see page 2 for label comments and existing stocks provisions

You must submit one (1) copy of the final printed label before you release the product for shipment. A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Julie Chao at 703-308-8735 or chao.julie@epa.gov.

Signature of Approving Official:

Meredith F. Laws, Chief
Insecticide-Rodenticide Branch
Registration Division (7505P)

Date:

SEP 29 2008

Label Comments

- NOTE The new primary brand name “CB® Invader® with Propoxur” has been noted in the Agency’s records All previously approved brand names containing the word “Residual” are now void
- It is recommended that on the front panel, the phrase “Inert Ingredients” be changed to “Other Ingredients ”
- Under the Hazards to Humans & Domestic Animals section, delete the sentence “Avoid contamination of food, utensils, and food preparation areas ” This text does not belong in this section The statement “Do not contaminate food, utensils, and food preparation areas” may be placed under the Directions for Use
- Delete the optional “Premium Pyrethrum” logo
- NOTE Should you wish to add/retain a reference to the company's website on your label, the website then becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E) 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance

Use of Existing Stocks of Labels

- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS NOT labeled with the prohibition on indoor residential spray use, then you may label your product with existing stocks for up to 12 months after the date of this reregistration notice
- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS labeled with the prohibition on indoor residential spray use, then you may not use existing stocks of labels that allow for indoor residential use You must use the new, stamped label that is enclosed with this reregistration notice
- If you formulate your end-use product with technical product purchased after January 31, 2009, then you may not use existing stocks of labels that allow for indoor residential use You must use the new, stamped label that is enclosed with this reregistration notice

CB[®]

This product is toxic to wildlife and aquatic invertebrates Do not apply directly to water Do not contaminate water by cleaning of equipment or disposal of wastes Do not contaminate water when disposing of equipment washwaters Apply this product only as specified on the label

PHYSICAL OR CHEMICAL HAZARDS

Extremely Flammable Contents under pressure Keep away from fire sparks and heated surfaces Do not puncture or incinerate container Exposure to temperatures above 130°F may cause bursting Do not spray on plastic painted or varnished surfaces or directly into any electronic equipment such as radios televisions computers etc

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

This insecticide is for use only with injection tube and for injecting into cracks and crevices where insects may be hiding living and breeding Place injector tip inch into cracks crevices holes and other small openings where insects may be a problem Release approximately 1 second spray per spot In serious infestations if possible place spots approximately 12 inches apart In light infestations or preventative treatment place spots approximately 3 feet apart See additional directions for effective kill of specified insects

CRAWLING PESTS Cockroaches, Waterbugs, Spiders, Earwigs, Crickets, Sowbugs, and Millipedes-Spray into hiding places such as cracks and crevices moist areas openings around pipes and sinks under refrigerators behind baseboards coffee makers meter boxes and manholes Will only kill pests present at the time of application Pests must be directly contacted to be effective Contact as many pests as possible Repeat as necessary

BOOKLICE & SILVERFISH Spray cracks and crevices in baseboards doorframes bookcases and storage areas Will only kill pests present at the time of application Pests must be directly contacted to be effective Contact as many pests as possible Repeat as necessary

ANTS Spray into nests trails and points of entry around doors windows structural cracks and crevices Will only kill pests present at the time of application Pests must be directly contacted to be effective Contact as many pests as possible Repeat as necessary

GRAIN WEEVILS, FLOUR BEETLES, CHOCOLATE MOTHS, DRUGSTORE BEETLES (in exposed adult and larval stages) and hibernating stages of BOXELDER BUGS, ELM LEAF BEETLES, CLUSTER FLIES and CLOVER MITES:

Contact as many insects as possible when treating infested areas such as cracks and crevices in wall voids, around windows and doorframes, under siding, in machinery, and in dark, secluded areas. Repeat as necessary.

For TERMITES: Locate source of infestation. Apply to voids and channels in damaged wooden members of a structure or to cracks, spaces or bearing joints between wooden members of a structure. Inject 5-10 seconds spray into insect tunnels and cavities. This application is not a substitute for mechanical alteration, soil treatment or foundation treatment but is merely a supplemental treatment. This product is intended to kill workers or winged reproductive forms which may be present in the treated areas.

APPLICATIONS IN AIRCRAFT: Do not use this product in aircraft cabins.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack & Crevice Treatment Only. Food handling establishments are places other than private residences where food is held, processed, prepared, or served. Food areas include areas for receiving, storage, packaging, preparing, edible waste storage, and enclosed processing systems. Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where insects hide. Do not allow the product to be deposited onto exposed surfaces or introduced into the air. Do not contaminate food or food processing surfaces. **Do not use in the serving/dining areas of restaurants. Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.**

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store in cool dry area away from children.

Disposal: Do not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1800-CLEANUP for disposal instructions.
