U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

9444-204

Date of Issuance:

SEP 29 2008

NOTICE OF PESTICIDE:

☐ Registration☒ Reregistration

(under FIFRA, as amended)

Term of Issuance: **Unconditional**

Name of Pesticide Product:

CB® Invader® II with Propoxur

Name and Address of Registrant (include ZIP Code):

Waterbury Companies, Inc.
129 Calhoun Street
Independence, LA 70443

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

Please see page 2 for label comments and existing stocks provisions

You must submit one (1) copy of the final printed label before you release the product for shipment. A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Julie Chao at 703-308-8735 or chao.julie@epa.gov.

Signature of Approving Official:

Meredith F. Laws, Chief
Insecticide-Rodenticide Branch
Registration Division (7505P)

Date:

SEP 29 2008

Label Comments:

- NOTE: The new primary brand name "CB® Invader® II with Propoxur" has been noted in the Agency's records. All previously approved brand names containing the word "Residual" are now void.
- Under the Hazards to Humans & Domestic Animals section, the following text may be deleted, as it appears in the PPE and User Safety Recommendations sections: "Personal protective equipment must include...socks." "Users should wash hands...Wash thoroughly after using."
- Delete the optional "Premium Pyrethrum" logo.
- NOTE: Should you wish to add/retain a reference to the company's website on your label, the website then becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Use of Existing Stocks of Labels:

- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS NOT labeled with the prohibition on indoor residential spray use, then you may label your product with existing stocks for up to 12 months after the date of this reregistration notice.
- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS labeled with the prohibition on indoor residential spray use, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.
- If you formulate your end-use product with technical product purchased after January 31, 2009, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.

CB[®]

INVADER[®] II WITH PROPOXUR

- Low 20% VOC Formulation
- Provides Rapid Kill of listed Industrial Pests
 - Quick Knockdown

KILLS: Cockroaches, Waterbugs, Spiders (excluding Black Widow and Brown Recluse), Earwigs, Crickets, Sowbugs, Millipedes, Booklice, Silverfish, Ants (excluding Harvester, Fire, Carpenter and Pharaoh), Grain Weevils, Flour Beetles, Chocolate Moths, Drugstore Beetles, Boxelder Bugs, Elm Leaf Beetles, Clover Mites, Cluster Flies and Termites (Subterranean, Formosan, Drywood). (This [product][treatment] will kill workers and/or winged reproductive forms of termites present at the time of application only. Application of this product will not provide structural protection nor substitute for mechanical alteration, soil or foundation treatment with termiticide. This product is not to be used as sole protection against termites, as it is not intended for use for elimination of termite infestations nor for protection against future infestations. A professional inspection is recommended.)

FOR USE IN Hospitals, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains, Trucks, Aircraft), Utilities, Meat Packing and Food Handling Establishments, Warehouses, Restaurants and Other Commercial Buildings

Do not spray product on indoor residential use sites, schools, day care facilities, motels, hotels, and other indoor locations where children may be present.

Do not apply this product in hospital patient rooms while occupied, or in any rooms occupied by the elderly or infirm.

Do not apply this product in a way that will contact any person or pet, directly or indirectly.

Do not allow people or pets to enter the treated area until sprays have dried.

ACTIVE INGREDIENT:

| | |
|-------------------------------|---------|
| Propoxur (CAS# 114-26-1)..... | 1.00% |
| OTHER INGREDIENTS..... | 99.00% |
| | 100.00% |

Contains Petroleum Distillates

Contains no CFCs or Other Ozone Depleting Substances. Federal Regulations Prohibit CFC Propellants in Aerosols.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See Back Panel for Additional Precautionary Statements.

EPA Est. No. 9444-LA-1

ACCEPTED
With COMMENTS
In EPA Letter Dated:
SEP 29 2008

NET WEIGHT 20 oz / 567 g

Under the Federal Insecticide, Fungicide
and Rodenticide Act, As amended, for the
pesticide Registered under EPA Reg. No:

9444-204

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Personal protective equipment must include: long-sleeved shirt and long pants, chemical-resistant gloves, and shoes plus socks. Contact with skin, eyes or clothing should also be avoided. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Wash thoroughly after using.

[For Reviewer: Boxed and "bulleted" format will be used if label space permits; otherwise a paragraph format will be used.]

FIRST AID

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER- Should illness occur, get prompt medical aid. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call (985) 878-6751, Monday through Friday, 8:00 am to 4:30 pm CST. After 4:30pm call your poison control center. For product information call (203) 597-1812, Monday-Friday, 8:00 am to 5:00 pm EST.

NOTE TO PHYSICIAN- Atropine Sulfate is antidotal. Contains petroleum distillate - vomiting may cause aspiration pneumonia. Contains methyl carbamate that inhibits cholinesterase.

Personal Protective Equipment (PPE): Applicators and all handlers must wear: Long-sleeved shirt and long pants, socks and shoes and chemical resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or viton. Follow manufacturer's requirements for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to wildlife and aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not spray on plastic, painted or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not contaminate food, utensils, and food preparation areas. Do not apply this product in a way that will contact any person or pet, either directly or indirectly. Keep people and pets out of the area during application.

This insecticide is for use only with injection tube and for injecting into cracks and crevices where insects may be hiding, living and breeding. Place injector tip 1/2 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release approximately 1 second spray per spot. In serious infestations, if possible, place spots approximately 12 inches apart. In light infestations or preventative treatment, place spots approximately 3 feet apart. See additional directions below for effective kill of specified insects.

CRAWLING PESTS: Cockroaches, Waterbugs, Spiders (excluding black widow and brown recluse), Earwigs, Crickets, Sowbugs, and Millipedes-Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes and manholes. Spray directly on insects in these locations where possible. Repeat as necessary.

BOOKLICE & SILVERFISH: Spray cracks and crevices in baseboards, doorframes, bookcases and storage areas. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests

as possible. Repeat as necessary.

ANTS (excluding fire, harvester, carpenter, and pharaoh ants): Spray into nests, trails and points of entry around doors, windows, structural cracks and crevices. Will only kill pests present at the time of application. Pests must be directly contacted to be effective. Contact as many pests as possible. Repeat as necessary.

GRAIN WEEVILS, FLOUR BEETLES, CHOCOLATE MOTHS, DRUGSTORE BEETLES (in exposed adult and larval stages) and hibernating stages of BOXELDER BUGS, ELM LEAF BEETLES, CLUSTER FLIES and CLOVER MITES: Contact as many insects as possible when treating infested areas such as cracks and crevices in wall voids, around windows and doorframes, under siding, in machinery, and in dark, secluded areas. Repeat as necessary.

For TERMITES: Inject 5-10 seconds spray into insect tunnels and cavities. This application is not a substitute for mechanical alteration, soil treatment or foundation treatment but is merely a supplemental treatment. For kill of **above-ground termites** in localized areas, apply to voids and galleries in damaged wood, and in spaces between wooden structural members and between the sill plate and foundation where wood is vulnerable. Applications may be made to inaccessible areas by drilling, and then injecting with a void injector into the damaged wood or wall voids. Termite carton nests in building voids may be injected using a void injector. It is desirable to physically remove carton nest material from building voids when such nests are found. This type of application is intended to be a supplemental treatment for kill of drywood and above-ground subterranean termites and other wood-infesting insects. This product is intended to kill workers or winged reproductive forms which may be present in the treated areas.

APPLICATIONS IN AIRCRAFT: Do not use this product in aircraft cabins.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack & Crevice Treatment Only. Food handling establishments are places other than private residences where food is held, processed, prepared, or served. Food areas include areas for receiving, storage, packaging, preparing, edible waste storage, and enclosed processing systems. Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where insects hide. Do not allow the product to be deposited onto exposed surfaces or introduced into the air. Do not contaminate food or food processing surfaces. **Do not use in the serving/dining areas of restaurants. Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.**

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store in cool dry area away from children.

Disposal: Do not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1800-CLEANUP for disposal instructions.
