FOR USE BY PROFESSIONAL APPLICATORS ONLY

4½ U. S. GALLONS

E.P.A. REG. NO. 9461

IMPORTANT

The contents of this container are part of a two component DEVVRAN™ Epoxy Coating and must be mixed with Converter MD 3252 before painting is ready for use.

Directions for Use

Be sure that all surfaces are clean free of moisture, soap, grease, or oil. Remove all loose paint with wire brush or scraper. Add Converter MD 3252. Mix thoroughly both by stirring and then pouring from one of the containers to another several times. Stir from time to time during application. Apply in two coats, as is on ship bottom, by brush or roller. For spraying, thin if necessary with DEVVRAN™ MD 1931 Thinner. Do not sand or abrade this paint. Allow 24 hours between coats.

Anti-fouling paint is not to be applied over old anti-fouling paints and should not be applied directly to metal. Always use proper mixing and application procedures.
