Silver Spring, MD 20904

Subject: **Sani-Cloth Germicidal Wipes Germicidal Disposable Cloth**  
EPA Registration Number 9480-4  
Application Dated June 30, 2008  
EPA Received Date July 10, 2008

Dear: Ms. Griffin:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

**Proposed Amendments:**

- Add organisms and minor label changes

**Efficacy Review:**

- The proposed label claims that the product, Sani-Cloth Germicidal Wipe (also known as Super Sani-Cloth), is an effective disinfectant against *Acinetobacter baumannii* on hard, non-porous surfaces in the presence of organic soil (5% blood serum) for a 2-minute contact time. This claim is supported by the submitted data.
- The proposed label claims that the product, Sani-Cloth Germicidal Wipe (also known as Super Sani-Cloth), is an effective disinfectant against *Campylobacter jejuni* and Influenza A (H1N1) virus on hard, non-porous surfaces in the presence of organic soil (5% blood serum) for a 2-minute contact time. This claim is supported by the submitted data.

**CONCURRENCES**

SYMBOL							
SURNAME							
DATE							

2018

3. The "First Aid" and "Precautionary Statements" sections on the label indicate to avoid contact with skin. Because the product is a towelette, the "Precautionary Statements" must be revised to state that suitable hand protection (e.g., gloves) must be worn at all times when dispensing and using the product.

The pictures on pages 13 and 15 of the proposed label also must be removed or changed. The pictures show ungloved hands using the towelette product.

4. Information provided on Agency website.  
([http://www.epa.gov/oppad001/label\\_guidance\\_avian.htm#towelette](http://www.epa.gov/oppad001/label_guidance_avian.htm#towelette))

**Towelette Products - Commercial, Industrial, Institutional, Agricultural and Residential Uses (For Avian Influenza claims):** Avian influenza A label claims will be accepted for these types of products provided efficacy data has been submitted and accepted to support the label claim. It should be clear that the use is only for surfaces which are not conducive to treatment by immersion or excess liquid (e.g., electrical panels, cash registers, door knobs and similar "high touch" surfaces). For uses in hospital/medical/health facilities, the directions for use for hospital disinfection must be followed. For all other use sites, general disinfection directions for use must be followed.

**Label Claims:** Featured statements/phrases, emphasized/enlarged lettering, special graphics, or any product name that employs the terms "**Avian influenza A**" or "**Bird Flu**", are unacceptable. Featured statements/phrases, emphasized/enlarged lettering or special graphics that are employed for the primary purpose of especially promoting or drawing attention to product efficacy against **avian influenza A**, are also unacceptable. For example, a featured, incomplete phrase such as "Kills avian influenza A" will not be permitted, but the phrase "Kills avian influenza A on pre-cleaned environmental surfaces" is acceptable.

5. The following change is required on the proposed label:

- Under the "Cleaning procedure" section on page 5, change "Open, unfold first germicidal wipe to remove heavy soil" to read "Open, unfold, and use first germicidal wipe to remove heavy soil."
- Remove the claim "Traps particles dust dirt hair crumbs" as the towelette has not demonstrated the ability to trap macroscopic debris.

30/18

**General Comments:**

Should you have any questions or comments concerning this letter, please contact Drusilla Copeland on (703) 308-6224.

Sincerely,

Velma Nobel

Product Manager (31)

**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

Danger. Causes irreversible eye damage. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using restroom. Remove and wash contaminated clothing before reuse.

**Physical or chemical hazard**

Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

in the presence of organic soil (5% blood serum)

[\*][Product name] is virucidal against Adenovirus Type 5, Herpes Simplex Type 2 (causative agent of genital herpes), Influenza A2/Hong Kong (representative of the common flu virus), Influenza A (H1N1) virus, Human Coronavirus, Respiratory Syncytial Virus [RSV], Rhinovirus, Rotavirus, and Vaccinia virus in the presence of organic soil (5% blood serum).

<sup>†</sup>KILLS HIV-1 (AIDS VIRUS), HEPATITIS B VIRUS (HBV) AND HEPATITIS C VIRUS (HCV) ON THE PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS AND PROBES PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in two (2) minutes at room temperature (68°- 77°F) or (20°- 25°C) in healthcare or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

The terms "wipe(s)", "towel(s)", "towelette(s)", and "cloth(s)" and the product name may be used interchangeably except for within the product primary brand name.

[Product name] is a premoistened, non-woven durable wipe containing a quaternary/alcohol based solution. Recommended for use in hospitals and other critical care areas where the control of the hazards of cross-contamination between treated surfaces is required. Use on hard non-porous surfaces and equipment listed on this label made of stainless steel, plastic, Formica® and glass. Some organisms are removed from the surface by thoroughly wiping the surface with the wipe. Most remaining organisms are killed within two (2) minutes by exposure to the liquid in the wipe.

**Areas of Use:**

Hospital and Healthcare Settings: Ambulances, Ambulatory Surgical Centers (ASC), Anesthesia, CAT Labs, CCU, Central Supply, Clinics, Dental Offices, Dialysis Clinics, Doctors Offices, Donation Centers [blood][plasma][semen][milk][apheresis], Emergency Medical Settings, Emergency Rooms, E.R., Emergency Vehicles, Eye Surgical Centers, Healthcare Settings, Health Care Facilities, Home Health Care, Hospices, Hospitals, ICU, Isolation Areas, Laboratory, Laundry rooms, Neonatal Intensive Care Units (NICU), Newborn nursery, Nursing homes, Operating Rooms (OR), Ophthalmic Offices, Orthopedics, Out-Patient Surgical Centers (OPSC), Patient Care Areas, Pediatrics, Pediatric Intensive Care Units (PICU), Physical therapy, Physician's offices, Radiology, Recovery Rooms, Rehabilitation, Respiratory therapy, Surgery, Surgical Centers, Transport vehicles and X-Ray.

and/or

**Critical Care Areas:** CCU, Emergency Rooms, E.R., ICU, Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU) and Surgery.

and

Hospital, Healthcare, and Critical Care Use Sites: May be used on hard non-porous surfaces of: ambulance equipment surfaces; bed railings; cabinets; carts; chairs; counters; dental chairs; dental countertops; dental unit instrument trays; endodontic equipment such as apex locators; exam tables; gurneys; infant incubators [interior and exterior surfaces of]; infant warmers [interior and exterior surfaces of]; isolettes; IV poles; laboratory equipment and surfaces; loupes; operating room tables and lights; operator light switches; oxygen hoods; physical therapy (PT) equipment surfaces; slit lamps; spine back boards; stethoscopes; stretchers; stools; tables; telephones; toilet seats; and hard non-porous outside surfaces of: amalgamators and dental curing lights; anesthesia machines and respiratory therapy equipment; apheresis machines, diagnostic equipment, dialysis machines; patient monitoring equipment, patient support and delivery equipment, pulp testers and motors; toilets; and ultrasound transducers and probes.

**Grocery Stores or Shopping Centers or Supermarkets or Delicatessens:** Disinfects grocery cart handles and grocery cart child seats. Disinfects shopping cart handles and child seats.

**Nursery or Daycare Centers: Bassinets [interior and exterior surfaces of],** changing tables, cribs, diaper changing stations, diaper pails, infant/child care equipment surfaces, trash cans, toys and other hard, non-porous surfaces listed on this label.

**Bathroom[s] or Public Restrooms: Basins, [bath]tubs,** bathroom fixtures, cabinets, countertops, doorknobs, faucet[s], handles, hampers, handrails, shower[s] [stalls], showers, sinks, glazed tiled walls, glazed tiles, toilet [handle] [rim] [seats] [tank] [and other exterior surfaces of], urinals [exterior surfaces of] and vanity tops, and other hard non-porous surfaces listed on this label.

**Health club facilities and Gyms:** Gym equipment, weight-lifting surfaces and other hard non-porous surfaces listed on this label.

**Schools or Classrooms or Office Buildings or Public Facilities or Manufacturing Facilities or Libraries or Public Telephones:** Cabinets, chairs, computers, computer monitors, computer mice, counters, countertops, desks, desktops, doorknobs, fax machines, filing cabinets, filing doors, filing handles, garbage cans, headsets, keyboards, railings, seats, sinks, tables, tabletops, telephones, toys, trash cans, work stations, and other hard non-porous surfaces listed on this label.

**Transport vehicles, school busses, public busses, fire trucks, police cars:** Hard non porous surfaces of vehicles including steering wheel, hard plastic or metal flooring, seats, and walls.

The terms "wipe(s)", "towel(s)", "towelette(s)", and "cloth(s)" and the product name may be used interchangeably except for within the product primary brand name.

**Restaurants:** Hard non porous, non food contact surfaces only including chairs, display cabinets, garbage cans, booster seats, floor, sinks, bathroom surfaces, glazed tiled walls, telephones, cash registers, and doorknobs.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

[Use one of the following as applicable to type of container.]

**[To Dispense TOWELETTES] [or WIPES] [or TOWELS] [or CLOTHS]:**

Remove lid [and discard inner seal] [from container or canister.] Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the [container or] canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep [center cap of] lid closed to prevent moisture loss.

**TRAVEL PACK:**

Peel back label slowly. Pull out wipes as needed and reseal label. Unfold wipe.

**BOX:**

Open along perforations as indicated. Remove packets as needed.

**PACKET/PACKAGE:**

Tear open packet [package]. Unfold wipe and use as directed. Discard after single use.

**SOLO® PAK:**

Open package lid. Completely remove inner seal. Pull out wipe. (The next wipe pops up automatically.) Snap lid closed after use to retain moisture.

DO NOT FLUSH • STORE AT ROOM TEMPERATURE  
DISPOSE OF USED WIPES IN TRASH RECEPTACLE • KEEP SOLO®  
LID CLOSED WHEN NOT IN USE  
SOLO® is a registered trademark of Nice-Pak Products, Inc.

**REFILL PACKET**

This refill package is made for use only in a [product name] [container or] canister; do not use this product in a [container or] canister for another product. Do not use the refill wipes in a container that is cracked or broken. Discard the cracked or broken container in accordance with the container disposal instructions on the label.

**[Option 1]**

Remove [entire] lid from [container or] canister. Tear open refill [package] at [notch] [mark] [arrow] and place [wipe] roll in empty [container or] canister. Follow information on [container or] canister to dispense wipes.

**[Option 2]**

Remove [entire] lid from [container or] canister. Tear open refill [package] at [notch] [mark] [arrow]. Place [entire] refill package of wipes in empty [container or] canister. Follow information on [container or] canister to dispense wipes.

The terms "wipe(s)", "towel(s)", "towelette(s)", and "cloth(s)" and the product name may be used interchangeably except for within the product primary brand name.

009480-00004.20080625.EPA amend organisms.pdf June 25, 2008

Page 4 of 15

80718

**GENERIC:**

Open lid. Pull out wipe. Close lid tightly.

Bucket [or pail or container]

1. Remove the lid from the [pail or bucket or container.]
2. Press open the dispenser at center of the lid.
3. Open the refill pack.
4. Locate the first wipe at the center of the roll.
5. Feed the first wipe through the dispensing orifice.
6. Reapply the lid to the [pail or bucket or container.]
7. Dispense the wipe.

For the refills:

1. Remove the lid from the [pail or bucket or container.]
2. Remove the empty refill pack material from the [pail or bucket or container.]
3. Press open the dispenser at center of the lid.
4. Open the refill pack.
5. Locate the first wipe at the center of the roll.
6. Feed the first wipe through the dispensing orifice.
7. Reapply the lid to the pail.
8. Dispense the wipe.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**TO DISINFECT [AND DEODORIZE]:** To disinfect nonfood contact surfaces only: Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full two (2) minutes. Use additional wipe(s) if needed to assure continuous two (2) minute wet contact time. Let air dry. [When TB is included on the label, add the following or use the TB directions below:] These directions also apply to Mycobacterium bovis BCG (Tuberculosis) at 68°F (20°C).

[The following sets of directions are optional and for hospital/medical facility use only:

Tuberculosis (TB) [Outbreaks]: This product is effective against Mycobacterium bovis BCG (Tuberculosis) in one minute at 68°F (20°C). Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for one (1) full minute. Use additional wipe(s) if needed to assure continuous one (1) minute wet contact time. Let air dry. Although efficacy at a one (1) minute contact time has been shown to be adequate against TB, this time is not sufficient for other organisms on the label. Therefore a 2 minute wet contact time must be used for all listed non TB organisms.

and/or

Ultrasound transducers and probes: For use on external surfaces of ultrasound transducers and probes only. To disinfect: Pre-clean gel from external surface of ultrasound transducer or probe to be disinfected by using a clean washcloth. Then thoroughly wet the probe with a wipe. Treated surface must remain visibly wet for a full two (2) minutes. Use additional wipe(s) if needed to assure continuous two (2) minute wet contact time. Let air dry.]

**†SPECIAL INSTRUCTIONS FOR CLEANING AGAINST HIV-1, HEPATITIS B VIRUS AND HEPATITIS C VIRUS OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**Personal protection:** When using this product, wear disposable protective gloves, protective gowns, face masks, or eye coverings as appropriate when handling HIV-1 (AIDS Virus), HBV or HCV infected blood or body fluids.

**Cleaning procedure:** All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal wipe. Open, unfold first germicidal wipe to remove heavy soil.

**Disposal of infectious materials:** Dispose of used wipe in accordance with local regulations for infectious waste disposal.

**Contact time:** Use second germicidal wipe to thoroughly wet surface. Allow to remain wet two (2) minutes, let air dry.

<p>The terms "wipe(s)", "towel(s)", "towelette(s)", and "cloth(s)" and the product name may be used interchangeably except for within the product primary brand name.</p> <p>009480-00004.20080625.EPA amend organisms.pdf</p> <p>Page 5 of 15</p> <p>June 25, 2008</p>
