## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

1/27

SEP 18 2007

Ms. Cristina Swift  
Agent for PDI  
Delta Analytical Corporation  
12510 Prosperity Drive  
Suite 160  
Silver Spring, MD 20904

Subject: Sani-Cloth Germicidal Disposable Cloth  
EPA Registration No.: 9480-5  
Amendment Date: May 3, 2007  
EPA Receipt Date: May 4, 2007

Dear Ms. Swift,

The following amendment submitted in connection with registration under FIFRA section 3(c)(7)(A) is acceptable with conditions.

- Removal of Isopropyl alcohol as active ingredient
- Addition of microorganisms, claims, and directions

**Conditions**

Revise the label as follows:

- 1) On page 2, revise the "Cleaning" directions to include deodorizing by stating "*Cleaning and Deodorizing.*"
- 2) On page 5, revise the use site list by deleting "away from home, outdoors, and throughout the house" because they are not specific sites. Also, delete "Poultry farms, breeding establishments, kennels, veterinary clinics, zoos as well as specific surfaces listed on pages 6 and 7 because this product does not support claims against animal pathogens.
- 3) On page 6 and 7, qualify "enamel tile" and "tile" as hard nonporous by stating "glazed enamel tile" and "glazed tile."

**CONCURRENCES**

SYMBOL							
SURNAME							
DATE							

4) This product cannot support an unqualified "Germ" claim unless the product has demonstrated effectiveness against one pathogenic fungi, Trichopyton mentagrophytes, or against an enveloped and noneveloped viruses. You must delete them from the label.

5) The following claims must be deleted from the label because they are misleading. This product is not to be used for personal hygiene.

Nursery wipes

Just like grabbing [dispensing][facial] tissues [from a box]

As easy as grabbing [dispensing][facial] tissues [from a box]

[Can] [easily] slip [fit] [into a diaper bag]

6) Any claim against the flu virus must be qualified by identifying the strain tested; such as "Effective against the common flu virus (Influenza A2/Hong Kong)."

7) On page 10, revise the 43<sup>rd</sup> claim by deleting the phrase "treated with a special cleaner." This claim is false and misleading.

8) On page 15, delete the claim "Reduces allergens and/or dust and/or pet dander." An allergen claim must list specific allergens the product removes.

#### Acceptable Data

Data Requirement	Means of Support	Status
Single Use Impregnated Towelette Disinfection – E. coli	Submitted study, MRID 471225-01	Acceptable, on hard nonporous surfaces in 5% soil for 5 min
Single Use Impregnated Towelette NonFood Contact Santizing – P. aeruginosa	Submitted study, MRID 471225-02	Acceptable, on hard nonporous, nonfood contact surfaces for 15 seconds
Single Use Impregnated Towelette NonFood Contact Santizing – E. coli	Submitted study, MRID 471225-03	Acceptable, on hard nonporous, nonfood contact surfaces for 15 seconds
Single Use Impregnated Towelette NonFood Contact Santizing – S. aureus	Submitted study, MRID 471225-04	Acceptable, on hard nonporous, nonfood contact surfaces for 15 seconds
Single Use Impregnated Towelette NonFood Contact Santizing – S. choleraesuis	Submitted study, MRID 471225-05	Acceptable, on hard nonporous, nonfood contact surfaces for 15 seconds
Single Use Impregnated Towelette NonFood Contact Santizing - K. pneumoniae	Submitted study, MRID 471225-06	Acceptable, on hard nonporous, nonfood contact surfaces for 15 seconds

#### General Comments

A stamped copy of the label accepted with conditions is enclosed. Submit three (3) copies of your final printed label before distributing or selling the product bearing the revised labeling.

Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

3  
27

If the above conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

Should you have any questions or comments concerning this letter, please contact Drusilla Copeland at (703).

Sincerely,

Velma Noble  
Product Manager (31)  
Regulatory Management Branch I  
Antimicrobials Division (7510P)

**PRECAUTIONARY STATEMENTS:**

**Hazards to humans and domestic animals.**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using toilet.

**FIRST AID**

**If in eye:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

[For additional information in case of emergency call toll free [phone number to be inserted]].

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**PHYSICAL OR CHEMICAL HAZARDS:**

Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Use one of the following as applicable to type of container:]

### TOWELETTE [or WIPE] [or TOWEL] [or CLOTH]

#### CANISTER DIRECTIONS:

To start feed: Remove lid and discard inner seal from canister. Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep center cap of lid closed to prevent moisture loss.

#### TRAVEL PACK:

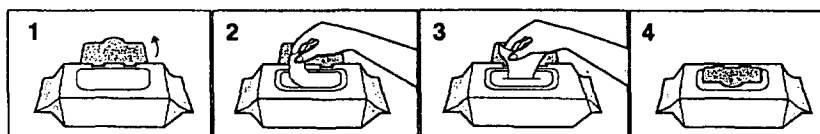

Peel back label slowly. Pull out wipes as needed and reseal label. Unfold wipe.

#### PACKET:

Tear open packet. Unfold wipe.

#### SOLO® PAK:

Open package lid. Completely remove inner seal. Pull out wipe. (The next wipe pops up automatically.) Snap lid closed after use to retain moisture.

DO NOT FLUSH • STORE AT ROOM TEMPERATURE  
DISPOSE OF USED WIPES IN TRASH RECEPTACLE • KEEP SOLO® LID CLOSED WHEN NOT IN USE

#### REFILL PACKET:

This refill package is made for use only in a [product name] canister; do not use this product in a canister for another product. Do not use the refill wipes in a container that is cracked or broken. Discard the cracked or broken container in accordance with the container disposal instructions on the label.

#### [Option 1]

Remove [entire] lid from canister. Tear open refill [package] at [notch] [mark] [arrow] and place [wipe] roll in empty canister. Follow directions on canister to dispense wipes.

#### [Option 2]

Remove [entire] lid from canister. Tear open refill [package] at [notch] [mark] [arrow]. Place [entire] refill package of wipes in empty canister. Follow directions on canister to dispense wipes.

#### GENERIC:

Open lid. Pull out wipe. Close lid tightly.

[Use one or more of the following as appropriate; they may be used in any order as long as the entire paragraph is used]

**CLEANING:** Wipe surface with towelette until clean. Let air dry.

#### TO SANITIZE NONFOOD CONTACT SURFACES:

Use a wipe to remove gross filth [or heavy soil]. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full fifteen (15) seconds. Use additional wipe(s) if needed to assure continuous 15 second wet contact time. Let air dry.

#### THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

## TO DISINFECT:

Use a wipe to remove gross filth [or heavy soil]. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipe(s) if needed to assure continuous 5 minute wet contact time. For food contact surfaces, rinse with potable water before use.

## ULTRASOUND TRANSDUCERS:

For use on external surfaces of Ultrasound Transducers only

To disinfect: Pre-clean ultrasound gel from external transducer to be disinfected by using a clean wash cloth. Then thoroughly wet the probe with a towelette. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipe[s] if needed to assure continuous 5 minute wet contact time. Let air dry.

*[The following headings are optional; choose as appropriate:]*

[Hospital Use] [Nursing Homes] [Doctors' Offices] [Hospices] [Healthcare Settings]

*[If directions for HIV are to be used, then use the following heading:]*

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS**

**KILLS HIV-1 (AIDS VIRUS) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS [AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS (PROBES)] PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in 30 seconds at room temperature (68°- 77°F or 20°- 25°C) in health care or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

**PERSONAL PROTECTION:** When using this product, wear disposable protective gloves, protective gowns, face masks, or eye coverings as appropriate when handling HIV-1 infected blood or body fluids.

**CLEANING PROCEDURE:** All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal cloth. Open and unfold first germicidal cloth to remove gross filth [or heavy soil].

**DISPOSAL OF INFECTIOUS MATERIALS:** Dispose of used towelette in accordance with local regulations for infectious waste disposal.

**CONTACT TIME:** Use second germicidal cloth to thoroughly wet surface. Allow to remain wet 30 seconds, let air dry. Although efficacy at a 30 second contact time has been shown to be adequate against HIV-1 (AIDS VIRUS), this time is not sufficient for the other non-HIV organisms listed on this label. Therefore, a 5 minute wet contact time must be used for all listed non-HIV organisms.

*[Use storage/disposal statement A if canister directions used. Use storage/disposal statement B if travel pack or [refill] packet directions used.]*

## STORAGE AND DISPOSAL

**Statement A: For canisters and refill dispensers:**

**Storage:** Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss.

**Towelette Disposal:** Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.

**Dispenser Disposal:** Do not reuse empty container. Triple rinse and offer for recycling. If recycling is not available, put in trash collection.

*[If refillable container is being used, substitute the following: Refill Dispenser Disposal: Triple rinse cracked or broken containers and offer for recycling. If recycling is not available, discard in trash.]*

### THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**Statement B:** For packets, travel packs, and [refill] packets:

Storage: Do not store near heat or open flame.

Towelette Disposal: Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.

Travel Pack [or Solo® Pak or Refill Packet] Disposal: Put empty travel pack [or Solo® Pak or refill packet] in trash collection.

**Use sites:**

[Optional: None, one, or both of the following paragraphs may be used as appropriate; paragraph #“B” may be used before “A” on the label if both are used]

[A]

**Hospital and Health Care Settings**

A non-woven disposable cloth for use in hospitals and other critical care areas where control of the hazards of cross-contamination between treated surfaces is required. Use on hard, non-porous surfaces and equipment including tables, carts, metal baskets, counters, cabinets, telephones and other uses listed on this label consisting of stainless steel, Formica, and glass. Some organisms are removed from the surface by thoroughly wiping the surface with the towel. Most remaining organisms are killed within five (5) minutes by exposure to the liquid in the towel.

[B]

[B 1] **Areas of Use:** Hard, non-porous surfaces in: Ambulances, Anesthesia, CAT Lab, CCU, Central Supply, Clinics, Critical Care Areas, Dental Offices, Dialysis Clinics, Doctor's Offices, Emergency Room (ER), Emergency Vehicles, Healthcare Settings, Home Health Care, Hospices, Hospital Settings, Hospitals, ICU, Laboratory, Medical Clinics, Neonatal Intensive Care Units (NICU), New-born Nursery, Nursing Homes, Operating Room (OR), Pediatrics, Physical Therapy, Physician's Offices, Radiology, Recovery Room, Respiratory Therapy, Surgery, X-Ray.

[At least one area in Section B 1 must be used if section B2 (below) is on the label]

[B 2] **May be used on:** Hard, non-porous surfaces of: Bed railings, Chairs, Exam [Examination] tables, Gurneys, Hospital beds, Isolettes, IV poles, MRI, Outside surfaces of equipment, Paddles, Patient chairs, Qualified metal surfaces [precleaning], Respirators, (half mask), Stethoscopes, Stretchers, Tables, Toilet seats and outside surfaces of toilets, Traction devices, Ultrasound transducers or probes.

[If paragraph A and/or paragraph B are used, then all of the following paragraph must be used on label.]

"This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection."

must include decontaminating instruction/directions

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**Use sites continued:** [choose from the following areas of use as appropriate; they may be listed in any order; at least one use site (including corresponding list of surfaces) must be used on the label; "Kitchen" areas of use must be included if "food contact surfaces" directions (see "Directions" page) are used.]

[insert product name] or [This product] cleans, deodorizes, and disinfects common hard non-porous indoor and outdoor surfaces. These pre-moistened, [insert scent from list above] wipes contain scrubbing fibers for effective everyday cleaning and for tough stains, such as soap scum and baked-on grease. Effective in 5 minutes against Staphylococcus aureus, Salmonella enterica, Klebsiella pneumoniae, Escherichia coli and Pseudomonas aeruginosa. Effective against flu virus Influenza A2/Hong Kong.

Pre-moistened [pre-soaked or pre-sprayed or pre-wetted] towels are effective for everyday cleaning, deodorizing and disinfecting. Effective in 5 minutes against Staphylococcus aureus, Salmonella enterica, Klebsiella pneumoniae, Escherichia coli and Pseudomonas aeruginosa. Kills Influenza A2/Hong Kong. Cleans and disinfects common hard non-porous surfaces. General use: Kitchen and bathroom surfaces, doorknobs, telephones, pet areas, cribs and toys.

*Sanitizer  
or disinfectant*

[Link bacteria, virus, germ and similar claims to the relevant bacteria and/or viruses. Designate bacteria and viruses separately using footnotes <sup>[1,2]</sup> or asterisks "\*" as desired. Note: The label must list the specific organisms at least once.

[List of bacteria]

Escherichia coli (E-coli) [ATCC 11229]  
Klebsiella pneumoniae (Kleb) [ATCC 4352]  
Pseudomonas aeruginosa [ATCC 15442]  
Salmonella enterica (Salmonella) [ATCC 10708]  
Staphylococcus aureus (Staph) [ATCC 6538]

[List of viruses]

Herpes Simplex Type 2  
[HIV-1 (Aids virus)] [include HIV-1 only if medical use sites and HIV directions are used on label]  
Influenza A,

If one step cleaner claims used and HIV-1 claims and/or directions for ultrasound transducers are included on the label, then the following also must be included on the same panel of the label:

▲ a pre-cleaning step is required for HIV-1 [and] [or] use on ultrasound transducers [or probes].

If HIV-1 or ultrasound transducers are not listed on the label, any of the one step cleaning/disinfecting claims may be used without the phrase requiring pre-cleaning.
