

NOV - 1 2007

Ms. Cristina Griffin  
Agency for  
Professional Disposables International, Inc. (PDI)  
c/o Delta Analytical Corp.  
12510 Prosperity Drive, Suite 160  
Silver Spring, MD 20904

Subject: **Sani-Cloth Germicidal Disposable Cloth**  
EPA Registration Number 9480-5  
Notification Application Dated October 15, 2007

Dear Ms. Griffin:

This will knowledge receipt of your notification, submitted under the provisions of FIFRA section 3c 9. Based on a review of the submitted material the following comment apply.

**Proposed Amendment:**

Label comments Per EPA letter dated 9/18/2007

**General Comment:**

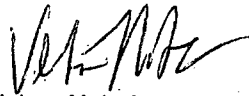

Based on a review of the material submitted, the following comment apply:

On page 15 delete the 2<sup>nd</sup> statement " Powerful enough to disinfect (sanitize)". As this is a heightened efficacy claim.

The notification is acceptable. A copy has been inserted in your file for future reference.

Should you have any questions concerning this letter please contact Drusilla Copeland at (703) 308-6224 or Velma Noble (70) 308-6233

Sincerely,

Velma Noble  
Product Manager (31)  
Regulatory Management Branch I  
Antimicrobials Division (7510P)

**RE: Notification per PR Notice 98-10 to add minor changes and reader's notes to master label**  
**Product: Sani-Cloth Germicidal Disposable Cloth, EPA Reg. No. 9480-5**  
**Company: Professional Disposables International, Inc. (PDI)**

Dear Ms. Noble:

On behalf of PDI, I am submitting a notification per PR Notice 98-10 for the product Sani-Cloth Germicidal Disposable Cloth, EPA Reg. No. 9480-5.

#### **Background**

In EPA's stamped label dated Sept 18, 2007, EPA provided several label comments. A few of the comments require interpretation. Since the wording is crucial for the final printed label to avoid contradictory statements, we will submit the final printed label to satisfy EPA's stamped label requirements, after the notification is approved. We also are adding a few minor label changes unrelated to EPA's stamped label comments.

#### **Label Changes**

All label notification changes are highlighted in the label and described below:

##### Minor Changes: Page 1 and 2

- Change to one of the establishment numbers
- Adding "manufactured for" as an option
- Substituting the company name to reflect EPA's change of name/ownership approval of June 29, 2007.
- Adding (page 2) "*Solo® is a registered trademark of Nice-Pak Products Inc.*"

##### Adding deodorizing heading and reader's note

EPA's stamped label letter of 9/18/07, Labeling Comment #1 stated: "*On page 2 of the label reference is made that product can be used to deodorize hard non porous surfaces. However, no directions are provided. The claim must either be deleted or directions provided.*"

On page two as requested we have added the "Deodorizing" heading. We have added brackets to the cleaning heading to show that cleaning or deodorizing directions are optional. On page 8 we have added a reader's note "[*Note: Deodorizing directions must be used when deodorizing claims (claims involving odor control) are used.*]"

##### Minor additional claims or additions to claims pages 8 - 18

- Have added "bacteria" to use as an option instead of "germs" wherever the word germs appears.  
12510 Prosperity Drive Suite 160 Silver Spring, Maryland 20904  
(301) 680-7971 fax (301) 680-7975 www.delta-ac.com

- [number to be inserted] [Textured] [household] [surface] wipes
- For use on [finished floors], [sealed floors], [glazed tile] floors], [laminate flooring], [and] [linoleum]
- [For] [use] [in] kitchen[s], [and] [baths] [bathrooms] [and all around the house]
- Large [size] [actual size of wipes] [textured] [wipes] [disinfecting cloths]
- [Now] [number of wipes] [even] [more] wipes
- Portable [pack]

Adding asterisk to "germ" claims and a reader's note to clarify

EPA's letter stamped label letter of 9/18/07, Labeling Comment #1 states *"This product cannot support an unqualified "germ" claim unless the product has demonstrated effectiveness against one pathogenic fungi, Trichophyton mentaprophytes, or an enveloped and nonenveloped viruses. You must delete them from the label."*

Instead of deleting the "germ" claims, we have added an asterisk wherever the word "germ" appears in order to link it to the following reader's note on page 19:

*[\*All "germ" claims must be linked to bacteria (minimum: Salmonella and Staph) and at least one virus with an asterisk or footnote. For example: Front panel: "Effective against household germs\*" Back panel: "\*Kills Salmonella enterica, Staphylococcus aureus, Herpes Simplex Type 2, and Influenza A/Hong Kong"]*

We have handled this in the same way EPA required for PDI's other product, EPA Reg. No. 9480-4 when EPA stated *"the term "germs" must be qualified anywhere it appears in the label."*

(See highlighted portion of EPA's germ policy attached.) Adding the asterisk and reader's note to address the issue results in a relatively minor correction to the subject stamped label, and is consistent with guidance EPA provided for similar claims on the other PDI stamped label; therefore, we believe the change qualifies as a notification item.

Adding Graphics

We have added the following graphics to the label

- A graphic showing spot cleaning of finished floors (page 22)
- Pictures showing the following use sites: faucet, telephone, kitchen counter top (page 25).

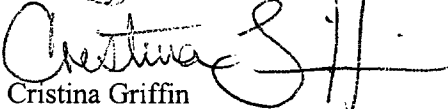

All sites above are listed as use sites on the label.

**Enclosures**

- EPA form 8570-1
- 1 copy of the revised label (additions highlighted)

If you have any questions regarding this submission, please contact me at 301-680-7971 or [cgriffin@delta-ac.com](mailto:cgriffin@delta-ac.com).

Sincerely,

  
Cristina Griffin

[For information call: [phone number to be inserted]] [website address]

**PRECAUTIONARY STATEMENTS:**

**Hazards to humans and domestic animals.**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using toilet.

**FIRST AID**

**If in eye:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

[For additional information in case of emergency call toll free [phone number to be inserted]].

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**PHYSICAL OR CHEMICAL HAZARDS:**

Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Use one of the following as applicable to type of container.]

**TOWELETTE [or WIPE] [or TOWEL] [or CLOTH]****CANISTER DIRECTIONS:**

To start feed: Remove lid and discard inner seal from canister. Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep center cap of lid closed to prevent moisture loss.

**TRAVEL PACK:**

Peel back label slowly. Pull out wipes as needed and reseal label. Unfold wipe.

**PACKET:**

Tear open packet. Unfold wipe.

**SOLO® PAK:**

Open package lid. Completely remove inner seal. Pull out wipe. (The next wipe pops up automatically.) Snap lid closed after use to retain moisture.

DO NOT FLUSH • STORE AT ROOM TEMPERATURE

DISPOSE OF USED WIPES IN TRASH RECEPTACLE • KEEP SOLO® LID CLOSED WHEN NOT IN USE

SOLO® is a registered trademark of Nice-Pak Products, Inc.

**REFILL PACKET:**

This refill package is made for use only in a [product name] canister; do not use this product in a canister for another product. Do not use the refill wipes in a container that is cracked or broken. Discard the cracked or broken container in accordance with the container disposal instructions on the label.

**[Option 1]**

Remove [entire] lid from canister. Tear open refill [package] at [notch] [mark] [arrow] and place [wipe] roll in empty canister. Follow directions on canister to dispense wipes.

**[Option 2]**

Remove [entire] lid from canister. Tear open refill [package] at [notch] [mark] [arrow]. Place [entire] refill package of wipes in empty canister. Follow directions on canister to dispense wipes.

**GENERIC:**

Open lid. Pull out wipe. Close lid tightly.

[Use one or more of the following as appropriate; they may be used in any order as long as the entire paragraph is used]

[CLEANING] [AND] [DEODORIZING]: Wipe surface with towelette until clean. Let air dry.

**TO SANITIZE NONFOOD CONTACT SURFACES:**

Use a wipe to remove gross filth [or heavy soil]. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full fifteen (15) seconds. Use additional wipe(s) if needed to assure continuous 15 second wet contact time. Let air dry.

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**TO DISINFECT:**

Use a wipe to remove gross filth [or heavy soil]. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipe(s) if needed to assure continuous 5 minute wet contact time. For food contact surfaces, rinse with potable water before use.

**ULTRASOUND TRANSDUCERS:**

For use on external surfaces of Ultrasound Transducers only

To disinfect: Pre-clean ultrasound gel from external transducer to be disinfected by using a clean wash cloth. Then thoroughly wet the probe with a towelette. Treated surface must remain visibly wet for a full five (5) minutes. Use additional wipe[s] if needed to assure continuous 5 minute wet contact time. Let air dry.

*[The following headings are optional; choose as appropriate:]*

[Hospital Use] [Nursing Homes] [Doctors' Offices] [Hospices] [Healthcare Settings]

*[If directions for HIV are to be used, then use the following heading:]*

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS**

KILLS HIV-1 (AIDS VIRUS) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS [AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS (PROBES)] PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in 30 seconds at room temperature (68°- 77°F or 20°- 25°C) in health care or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

**PERSONAL PROTECTION:** When using this product, wear disposable protective gloves, protective gowns, face masks, or eye coverings as appropriate when handling HIV-1 infected blood or body fluids.

**CLEANING PROCEDURE:** All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal cloth. Open and unfold first germicidal cloth to remove gross filth [or heavy soil].

**DISPOSAL OF INFECTIOUS MATERIALS:** Dispose of used towelette in accordance with local regulations for infectious waste disposal.

**CONTACT TIME:** Use second germicidal cloth to thoroughly wet surface. Allow to remain wet 30 seconds, let air dry. Although efficacy at a 30 second contact time has been shown to be adequate against HIV-1 (AIDS VIRUS), this time is not sufficient for the other non-HIV organisms listed on this label. Therefore, a 5 minute wet contact time must be used for all listed non-HIV organisms.

*[Use storage/disposal statement A if canister directions used. Use storage/disposal statement B if travel pack or [refill] packet directions used.]*

**STORAGE AND DISPOSAL**

*Statement A: For canisters and refill dispensers:*

**Storage:** Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss.

**Towelette Disposal:** Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.

**Dispenser Disposal:** Do not reuse empty container. Triple rinse and offer for recycling. If recycling is not available, put in trash collection.

*[If refillable container is being used, substitute the following: Refill Dispenser Disposal: Triple rinse cracked or broken containers and offer for recycling. If recycling is not available, discard in trash.]*

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**Statement B:** For packets, travel packs, and [refill] packets:

**Storage:** Do not store near heat or open flame.

**Towelette Disposal:** Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.

**Travel Pack [or Solo® Pak or Refill Packet] Disposal:** Put empty travel pack [or Solo® Pak or refill packet] in trash collection.

**Use sites:**

[Optional: None, one, or both of the following paragraphs may be used as appropriate; paragraph #“B” may be used before “A” on the label if both are used]

[A]

**Hospital and Health Care Settings**

A non-woven disposable cloth for use in hospitals and other critical care areas where control of the hazards of cross-contamination between treated surfaces is required. Use on hard, non-porous surfaces and equipment including tables, carts, metal baskets, counters, cabinets, telephones and other uses listed on this label consisting of stainless steel, Formica, and glass. Some organisms are removed from the surface by thoroughly wiping the surface with the towel. Most remaining organisms are killed within five (5) minutes by exposure to the liquid in the towel.

[B]

**[B 1] Areas of Use:** Hard, non-porous surfaces in: Ambulances, Anesthesia, CAT Lab, CCU, Central Supply, Clinics, Critical Care Areas, Dental Offices, Dialysis Clinics, Doctor's Offices, Emergency Room (ER), Emergency Vehicles, Healthcare Settings, Home Health Care, Hospices, Hospital Settings, Hospitals, ICU, Laboratory, Medical Clinics, Neonatal Intensive Care Units (NICU), New-born Nursery, Nursing Homes, Operating Room (OR), Pediatrics, Physical Therapy, Physician's Offices, Radiology, Recovery Room, Respiratory Therapy, Surgery, X-Ray.

[At least one area in Section B 1 must be used if section B2 (below) is on the label]

**[B 2] May be used on:** Hard, non-porous surfaces of: Bed railings, Chairs, Exam [Examination] tables, Gurneys, Hospital beds, Isolettes, IV poles, MRI, Outside surfaces of equipment, Paddles, Patient chairs, Qualified metal surfaces [precleaning], Respirators, (half mask), Stethoscopes, Stretchers, Tables, Toilet seats and outside surfaces of toilets, Traction devices, Ultrasound transducers or probes.

[If paragraph A and/or paragraph B are used, then all of the following paragraph must be used on label.]

“This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.”

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms “wipe(s)”, “towel(s)”, “towelette(s)” and “cloth(s)” can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

**Use sites continued:** [choose from the following areas of use as appropriate; they may be listed in any order; at least one use site (including corresponding list of surfaces) must be used on the label; "Kitchen" areas of use must be included if "food contact surfaces" directions (see "Directions" page) are used.]

 [Wow] scrubs like a sponge

**THE INFORMATION IN THIS BOX IS NOT PART OF THE LABELING**

Statements in brackets [ ] are optional or instructional. The terms "wipe(s)", "towel(s)", "towelette(s)" and "cloth(s)" can be used interchangeably throughout except for the product primary brand name which can be only changed by notification or amendment.

[insert product name] or [This product] cleans, deodorizes, and disinfects common hard non-porous indoor and outdoor surfaces. These pre-moistened, [insert scent from list above] wipes contain scrubbing fibers for effective everyday cleaning and for tough stains, such as soap scum and baked-on grease. Effective in 5 minutes against *Staphylococcus aureus*, *Salmonella enterica*, *Klebsiella pneumoniae*, *Escherichia coli* and *Pseudomonas aeruginosa*. Effective against flu virus Influenza A2/Hong Kong.

Pre-moistened [pre-soaked or pre-sprayed or pre-wetted] towels are effective for everyday cleaning, deodorizing and disinfecting. Effective in 5 minutes against *Staphylococcus aureus*, *Salmonella enterica*, *Klebsiella pneumoniae*, *Escherichia coli* and *Pseudomonas aeruginosa*. Kills Influenza A2/Hong Kong. Cleans and disinfects common hard non-porous surfaces. General use: Kitchen and bathroom surfaces, doorknobs, telephones, cribs and toys.

[Link bacteria, virus, germ and similar claims to the relevant bacteria and/or viruses. Designate bacteria and viruses separately using footnotes <sup>[1,2]</sup> or asterisks <sup>[\*,\*\*]</sup> as desired. Note: The label must list the specific organisms at least once.

[List of bacteria]

*Escherichia coli* (E-coli) [ATCC 11229]  
*Klebsiella pneumoniae* (Kleb) [ATCC 4352]  
*Pseudomonas aeruginosa* [ATCC 15442]  
*Salmonella enterica* (Salmonella) [ATCC 10708]  
*Staphylococcus aureus* (Staph) [ATCC 6538]

[List of viruses]

Herpes Simplex Type 2  
 [HIV-1 (Aids virus)] [include HIV-1 only if medical use sites and HIV directions are used on label]  
 Influenza A/Hong Kong

[When organisms are listed next to a claim, the organisms may be listed in a footnote instead of directly next to the claim]

[\*All "germ" claims must be linked to bacteria (minimum: *Salmonella* and *Staph*) and at least one virus with an asterisk. For example: Front panel: "Effective against household germs\*" Back panel: "\*\*Kills *Salmonella enterica*, *Staphylococcus aureus*, Herpes Simplex Type 2, and Influenza A/Hong Kong"

If one step cleaner claims used and HIV-1 claims and/or directions for ultrasound transducers are included on the label, then the following also must be included on the same panel of the label:

▲ a pre-cleaning step is required for HIV-1 [and] [or] use on ultrasound transducers [or probes].

If HIV-1 or ultrasound transducers are not listed on the label, any of the one step cleaning/disinfecting claims may be used without the phrase requiring pre-cleaning.
