CAUTION COMBUSTIBLE MIXTURE

USDA Reg. No. 9494-1

N.Y.F.D.C. of A. No. 4154

COMMANDO VAPORIZER CONCENTRATE

AN EFFECTIVE SEMI-CONCENTRATE FOR APPLICATION IN SPECIALIZED GENERATORS

Commando Vaporizer Concentrate is a semi-concentrated insecticide, for application in specialized equipment, such as the Tifa Fog, Microsol, Challenger Generators, Tornado, Bes-Kill Aerosol Generator, electric and compressed air applicators, and similar equipment. Commando Vaporizer Concentrate is highly useful for insect control in residences, institutions, public buildings, hospitals, hotels, restaurants, stores, theatres, food processing plants, bakeries, grain mills, dairies, breweries, bottling plants, warehouses, trucks and other situations where an insecticide with a high degree of effectiveness is required. Used as recommended, Commando Vaporizer Concentrate can be used around food, food products, utensils, and equipment, but should not be applied directly to uncovered food or foodstuffs.

ACTIVE INGREDIENTS	100%
Pyrethrins	0.3%
Piperonyl Butoxide, Technical*	3.0%
Petroleum Distillate	96.7%
*Equivalent to 2.4% of (butylcarbityl) (6-propylpiperonyl) ether and 0.6% of related compounds.	

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed.

This insecticide is an oil base material and should not be sprayed, stored or otherwise exposed to an open flame. Not more than one gallon should be sprayed in 40,000 cubic feet of enclosed space in order to avoid an explosion hazard.

In proper, specialized application, Vaporizer Concentrate kills the accessible, exposed stages of flies, including fruit flies, mosquitoes, silverfish, flying moths, gnats, crickets, roaches, spiders, scorpions, wasps, hornets, clover mites, cheese mites, cheese skippers, certain stored product insects including granary weevil, rice weevil, grain beetle, spider beetles, cigarette beetles, drugstore beetles, flour beetles, angoumois grain moth, Mediterranean flour moth, Indian meal moth, tobacco moth, meal worms and grain mites.

Use in accordance with manufacturers' directions for the individual type of applicator selected. In the TIFA Machine, a No. 4 dial setting is recommended, with a dosage of 1 to 2 ounces per 1,000 cubic feet of space. Repeat treatments at intervals as needed.

The use of this product as a space spray in food processing plants should be confined to time periods when the plant is not in operation. Food should be removed or covered during treatment.

TERMS OF SALE OR USE: On purchase or use of this product buyer and user agree to the following conditions:

WARRANTY: Elgene warrants that this product, as of the time of sale by Elgene, (1) conforms to the ingredient statement on the label, and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. ELGENE MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages. Notice of any claim must be reported to Elgene within 10 days of discovery by buyer or user, failing which buyer or user waives any claim for such damage.

EXCUSE FROM NON-CONTROLLABLE CONDITIONS: Because of certain critical conditions created or incurred by buyer or user or over which Elgene has no control, buyer and user, as a condition of purchase or use, assume responsibility for, and release Elgene from, liability arising out of the handling or use of the product attributable to such causes. No person is authorized to vary or waive any statement contained herein.
