

DIRECTIONS

WINTERIZING TABLETS will help keep a clean and algae free pool in the same condition through the winter months. Simply put tablets into Ortex's Deluxe, deep-sea-disperser, flat top, floating dispenser (or facsimile) at the rate of 1 to 2 (2 oz. tablets) for each 5,000 gals. of water. This amount of chlorine will provide 21 ppm during the winter storage months to help control the growth of algae. With the pool shut down and covered, these tablets will slowly and the available chlorine is released at a

8 oz. WINTERIZING TABLETS

Active Ingredients: Trichloro-S-Triazinetrione 100%
Available Chlorine 90%

DANGER: KEEP OUT OF REACH OF CHILDREN
SEE FIRST AID & ADDITIONAL PRECAUTIONS ON SIDE PANEL

DANGER: KEEP OUT OF REACH OF CHILDREN
Corrosive, causes eye damage in eyes, on skin or on clothing breathing dust. May cause burns on handling.

FIRST AID: If swallowed, feed in milk, followed by olive oil. In case of contact, remove excess material for at least 15 minutes. For and wash contaminated clothing.

DANGER: STRONG OXIDIZING
Mix only with water. Use clean water, ure, organic matter, or other materials. Store in a cool, dry, well-ventilated place. Decomposes at 350-475°F. In case of decomposition, flood with large amounts of water when not in use. Rinse empty container to solve all material before discarding.
ENVIRONMENTAL HAZARDS: Effluent should not be discharged into streams, or public waters. Do not use equipment or disposal of waste on the label.

WINTERIZING TABLETS will help keep a clean and algae-free condition through the winter months. Simply put tablets in Place Deluxe, deep-receptacle, float-top, floating dispenser (or fasten to pool cover) at rate of 1 lb (2 - 8 oz tablets) for each 5,000 gals of water. Available chlorine will provide 2 ppm during the winter storage months to control the growth of algae. With the pool shut down and covered, tablets will dissolve very slowly and the available chlorine is released at a slow rate on a gradual basis and designed to last during the winter months. Place Deluxe dispenser in pool under the cover near the center and hold it in place.

IMPORTANT - Do NOT throw tablets directly into pool to avoid bleaching of liner or painted surface.

NOTE: Never allow this chemical, in its original concentration, to come in contact with any other chemical, as violent reactions can occur.
